## Math Enrichment 4-5

## Homework 14

Problem 1 What fruits do you see in the picture? Color in the circle with the number equal to the amount of big apples in blue, the big pears - in red, the small apples - in green and the small pears - in yellow? What fruits are equal?

(5)

Finish the pattern.

$\square$

Problem 2 Girl is walking on the road. Color in green all the roofs of the houses that are to the right of the girl. Color in blue all the roofs of the houses that are to the left of the girl. One house is missing the roof. Draw this roof but, make sure the number of the triangular roofs should be the same as the number of the quadrilateral (trapezoid) roofs. Make $\mathbf{6}$ houses in all to the right of the girl. Draw.

Problem 3 Help the fish get to the worm. Draw the line without lifting your pencil.

Finish drawing hair on the bald heads.

Finish the pattern.
