

SchoolNova Computer Science 202
Homework 24
Due 4/17/2021 on Google Classroom

Task 1

Review classwork 24 code. Make sure you understand everything. Ask questions if anything is not clear.

Task 2

Go to <https://github.com/cjhutto/vaderSentiment>. Install VADER. Read the module description. Explore the examples (optional). Read carefully the section "About the Scoring".

Task 3

Go to <https://github.com/metalcorebear/NRClex>. Install NRClex. Read the module description. For additional details see <http://saifmohammad.com/WebPages/NRC-Emotion-Lexicon.htm> (optional).
