

MATH 6  
ASSIGNMENT 8: INTERVALS HANDOUT

INTERVALS

# INTERVALS

1. Draw the following sets on the number line:

- (a) Set of all numbers  $x$  satisfying  $x \leq 2$  and  $x \geq -5$ ;
- (b) Set of all numbers  $x$  satisfying  $x \leq 2$  or  $x \geq -5$
- (c) Set of all numbers  $x$  satisfying  $x \leq -5$  or  $x \geq 2$

2. For each of the sets below, draw it on the number line and then describe its complement:

- (a)  $[0, 2]$       (b)  $(-\infty, 1] \cup [3, \infty)$       (c)  $(0, 5) \cup (2, \infty)$  where
- $[a, b] = \{x \mid a \leq x \leq b\}$  is the interval from  $a$  to  $b$  (including endpoints),
- $(a, b) = \{x \mid a < x < b\}$  is the interval from  $a$  to  $b$  (**not** including endpoints),
- $[a, \infty) = \{x \mid a \leq x\}$  is the half-line from  $a$  to infinity (including  $a$ ),
- $(a, \infty) = \{x \mid a < x\}$  is the half-line from  $a$  to infinity (**not** including  $a$ )
