

## Math Enrichment 4-5

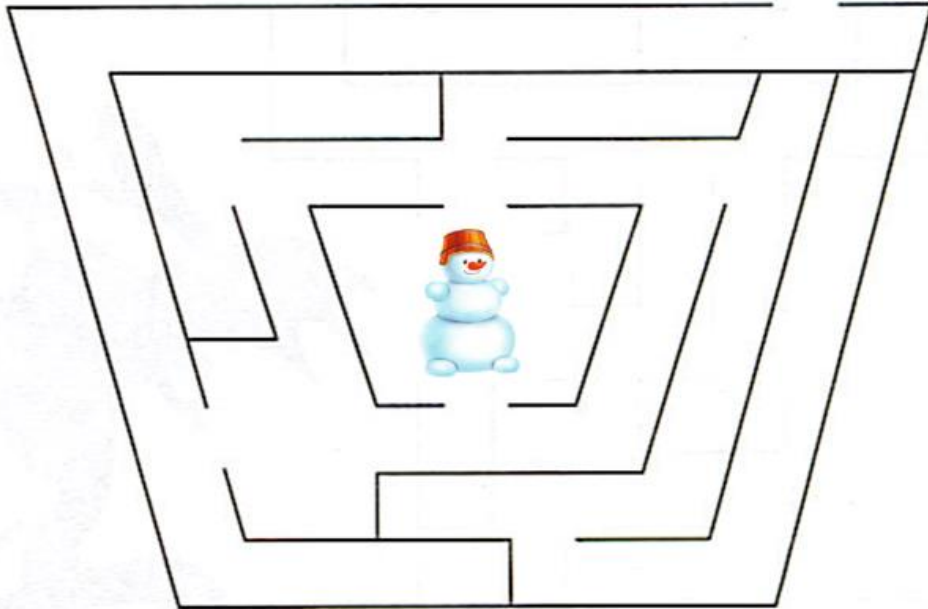

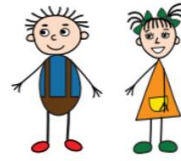

### Homework 11

Hi! My name is Billy, and My name is Greta!  
We are going to visit someone special today. Trace each  
object on the picture below with different colors to guess  
what we are going to do and who is waiting for us.

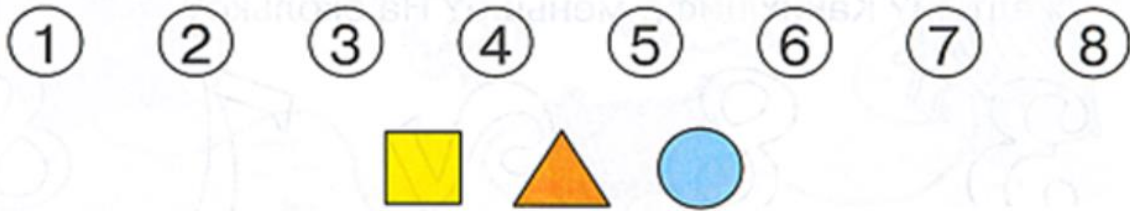

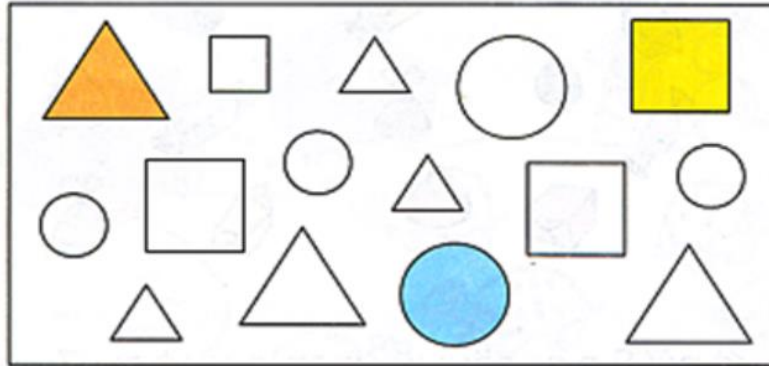

Greta, let's find path to snowman! said, Billy but we need your help, friends!

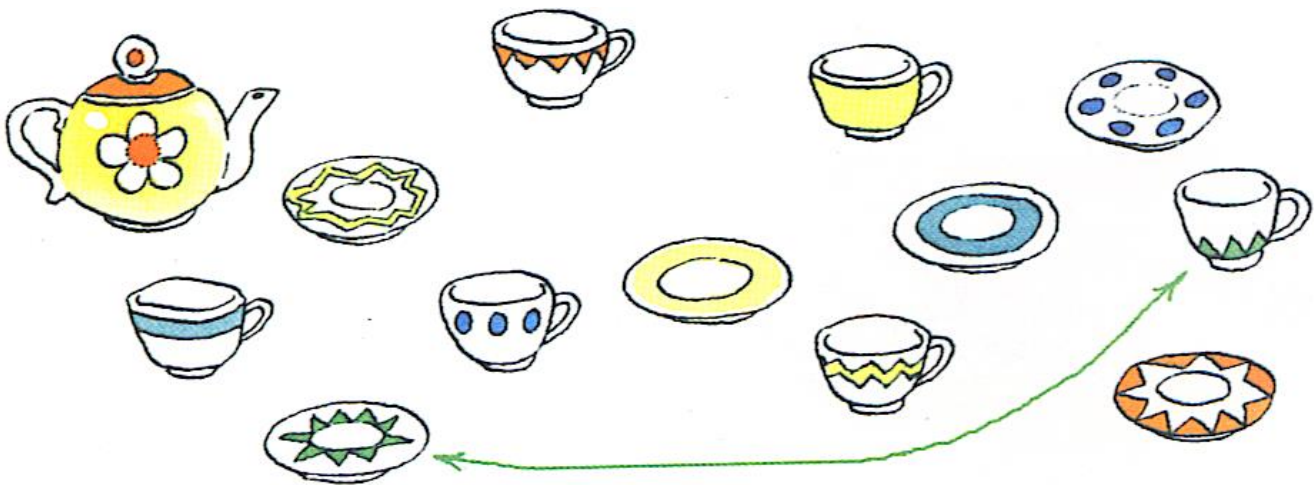

We made it, friends! Said Billy and Great! Look around.  
Color the tallest tree that is to the right of the house, and the smallest tree to the left of the house. Draw the sun above the house. Color in the same number of snowballs in blue as there are pine trees.

Let me put on my special look, friends!-said the snowman. I want to wear my beautiful buttons...but can't choose...Color all the shapes, then count how many triangular, round and square buttons are in my buttons box. I will choose the least amount shaped buttons. Is it going to be square? triangular or round buttons?

So glad you helped me! Time for tea party. Match the cups to their plates.

I prepared sweets for you too, said snowman!  
Help me to group sweets by their shapes.

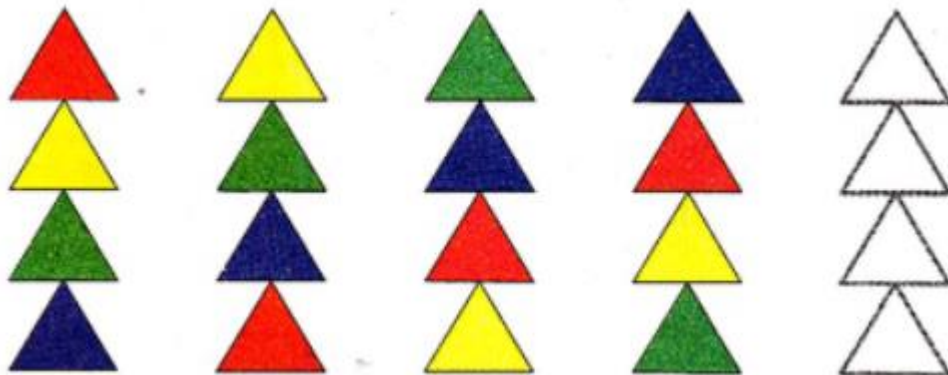

Time to play – Let's make up number 5 in different ways. Place snowballs : draw white and blue circles inside the square frame.

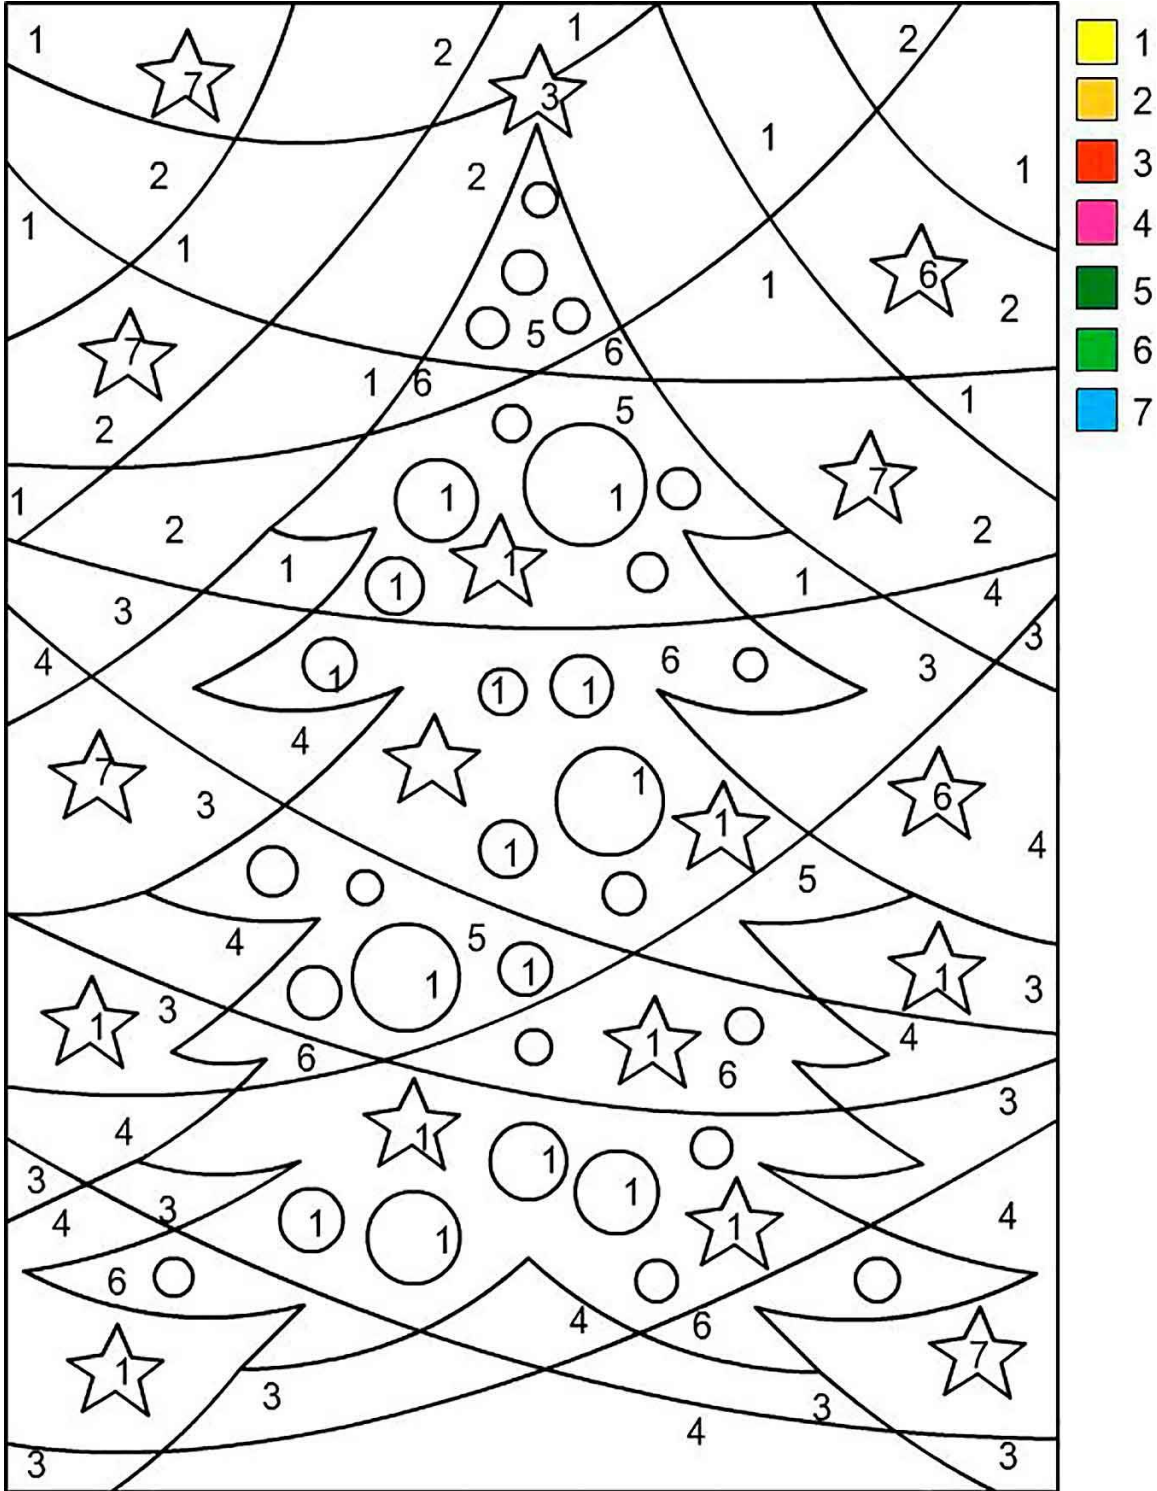

We had great times, but we need to choose tree for Christmas.  
Trees are in enchanted forest and we need to color tree first

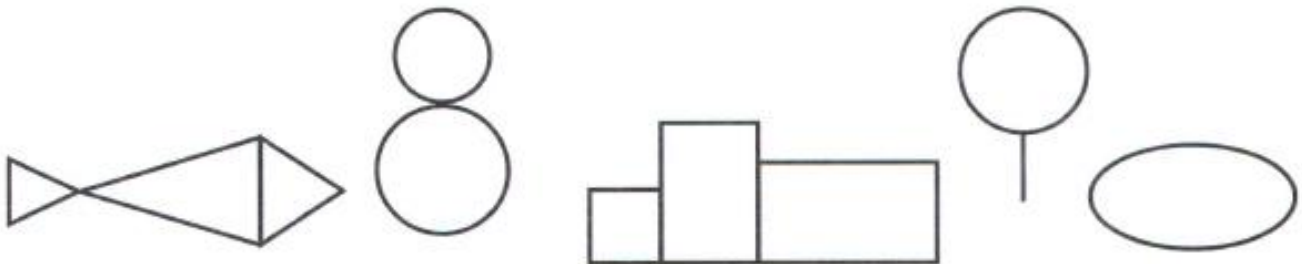

Look, here is a nice tree -lets color this one in according to the color scheme.

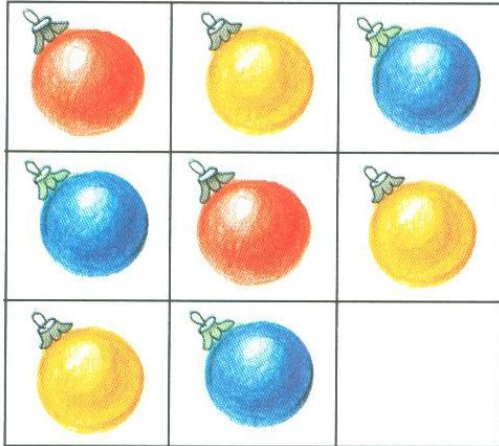

The more ornaments on the tree -the prettier it looks. Help snowman to decorate.

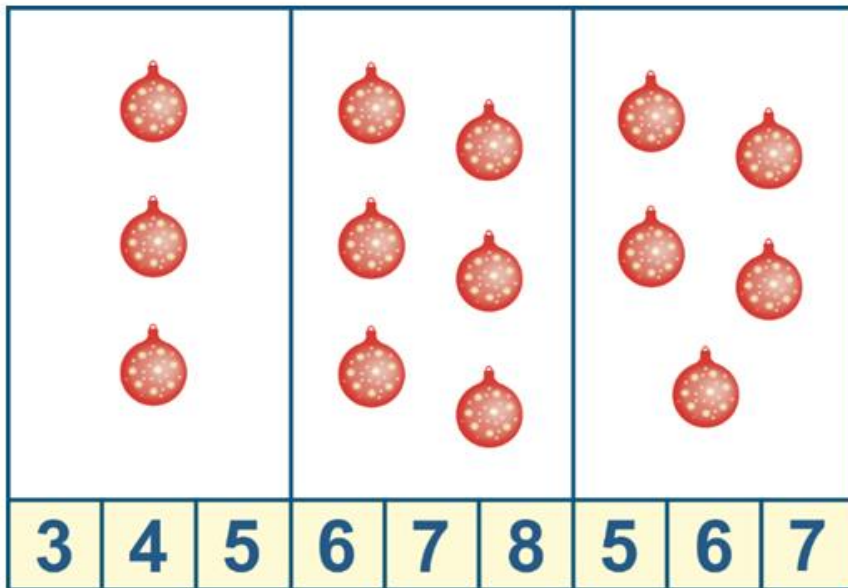

Ops...some of the toy decorations are not finished. Can you complete drawings the way the toys should look.

Draw the ornament that is missing.

Oh, look, how many ornaments are getting ready to be hung on a tree

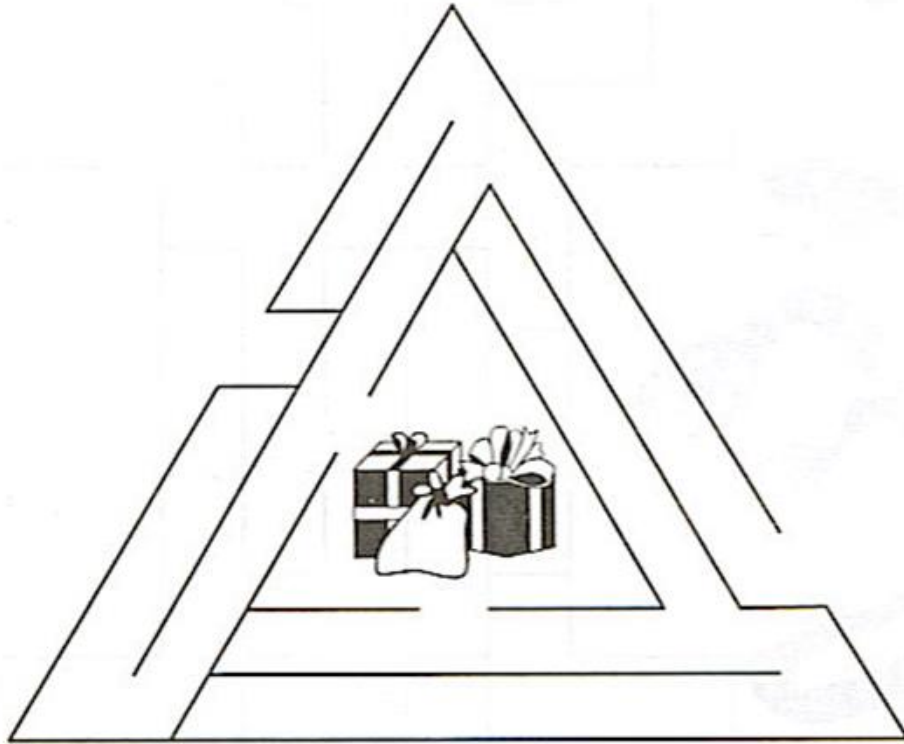

Time to light our lights. Continue the light pattern please

Look what's under the tree? Find your present!

Now, time to share your holiday with everyone in the Universe! Connect the number stars to help Santa!
