

My dear students and parents,

Welcome to a new SchoolNova year! My name is Inna Sus and I will be your Mathematics teacher this year. This is going to be a wonderful and fun school year!

During this class, we will learn new things, revisit old material, discuss ideas, solve problems, ask questions, and, of course, play games. All subjects we plan to cover this year are collected in the classwork book. Also, all homeworks are gathered in two books: one has odd-numbered homeworks and the other even-numbered ones—we will exchange them every week. Homework will be assigned every week and it is expected that students complete all assignments. Try not to have your child do their homework in one day. I recommend you do a couple of problems per day throughout the week, unless the child really, really wants to do it all in once! If your child struggles with any of the problems and you are unable to help, please ask him/her to do their best and leave the problem as is. In this way, when I will check the work, I can better pinpoint weak spots and during the class time, we will work on them. If you and your child have a question about homework please feel free to contact me via e-mail or ask me after class. Please bring your books every day!

Please try not to miss school, but if your child is sick or away, you can always find the missing homework and classwork in your workbooks and on our SchoolNova website in the Homework section. Please try not to be late for the class. It is very disruptive especially for children.

During the 2017-2018 school year, each student will be provided with pencils, paper, erasers, rulers, cutouts, scissors, small prizes, etc. *Because of these miscellaneous expenses, it was agreed that each math teacher is to collect \$20 materials fee.*

I am looking forward to a successful academic year! If you have any questions feel free to contact me before or after class, or just email me at innasus@yahoo.com

Sincerely,

Inna Sus
