

Lesson 11. Homework

1

Write the sum for each addition fact. Then, color according to the key at the bottom.

8

12

14

17

10

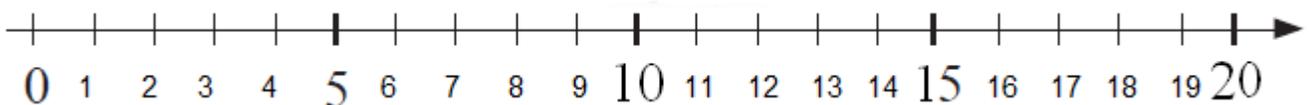

19

15

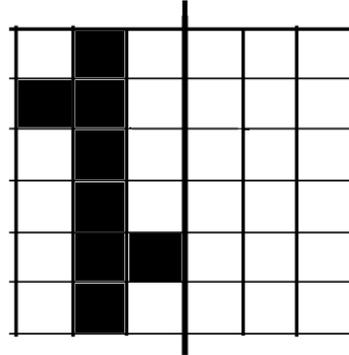

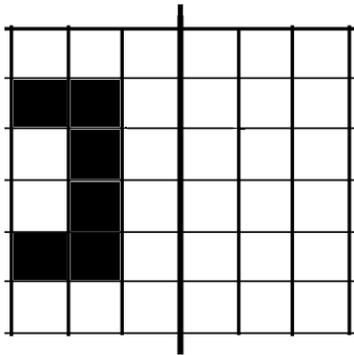

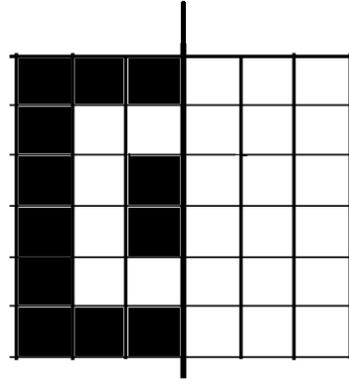

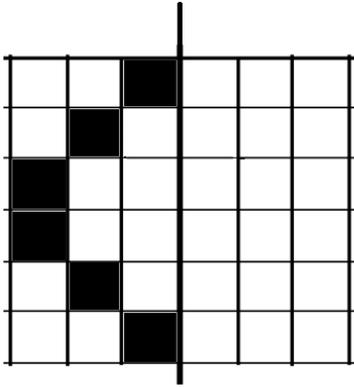

20

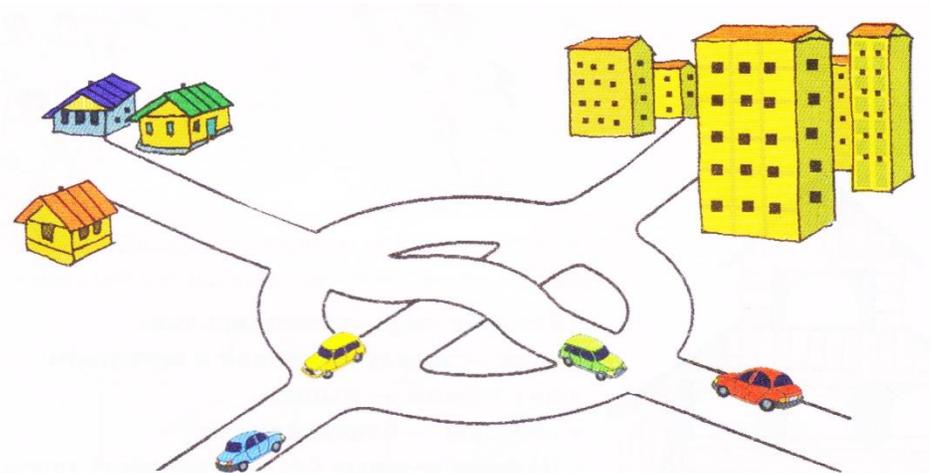

2

Add the mirror image of each figure.

3

The red car has to go to the city. The blue car has to go to the village. The cars cannot intersect the other cars. Draw a line to show the path of the red and blue cars.

4

Solve the problems.

a) There are 6 pancakes on a plate. How many plates do we need to place 2 pancakes on each plate?

b) An old woman was walking to the market. She met three men. Each man had 2 sons with him. How many people were walking to the market?

c) Andrew is the same height as Steve, and Steve is taller than Peter. Who is shorter- Andrew or Peter? (Draw the graph as we did in class).

5

Draw the diagram and solve the equations for x .

$$x - \begin{array}{c} \text{★} \\ \text{★} \\ \text{●} \end{array} = \begin{array}{c} \text{●} \\ \text{●} \end{array}$$

$$x - \begin{array}{c} \text{●} \\ \text{●} \\ \text{●} \\ \text{●} \end{array} = \begin{array}{c} \text{●} \\ \text{▲} \end{array}$$

$$x - 4 = 4$$

$$x = \begin{array}{c} \text{) } \\ \text{ (} \end{array} + \begin{array}{c} \text{) } \end{array}$$

$$x = \begin{array}{c} \text{) } \\ \text{ (} \end{array} + \begin{array}{c} \text{) } \end{array}$$

$$x = \begin{array}{c} \text{) } \\ \text{ (} \end{array} + \begin{array}{c} \text{) } \end{array}$$

$$x = \text{○}$$

$$x = \text{○}$$

$$x = \text{○}$$

$$\text{○} - \begin{array}{c} \text{) } \\ \text{ (} \end{array} = \begin{array}{c} \text{) } \end{array}$$

$$\text{○} - \begin{array}{c} \text{) } \\ \text{ (} \end{array} = \begin{array}{c} \text{) } \end{array}$$

$$\text{○} = \begin{array}{c} \text{) } \\ \text{ (} \end{array} + \begin{array}{c} \text{) } \end{array}$$

$$X + \begin{array}{|c|c|c|} \hline \text{blue square} & \text{blue square} & \text{blue square} \\ \hline \end{array} = \begin{array}{|c|c|c|c|c|} \hline \text{blue square} & \text{blue square} & \text{blue square} & \text{red circle} & \text{red circle} \\ \hline \end{array}$$

$$X = \begin{array}{|c|c|c|c|c|} \hline \text{blue square} & \text{blue square} & \text{blue square} & \text{red circle} & \text{red circle} \\ \hline \end{array} - \begin{array}{|c|c|c|} \hline \text{blue square} & \text{blue square} & \text{blue square} \\ \hline \end{array}$$

$$X = \text{empty box}$$

$$\begin{array}{|c|c|} \hline \text{yellow circle} & \text{green triangle} \\ \hline \end{array} + X = \begin{array}{|c|c|c|} \hline \text{yellow circle} & \text{green triangle} & \text{green triangle} \\ \hline \end{array}$$

$$X = \text{empty box} - \text{empty box}$$

$$X = \text{empty box}$$

$$\begin{array}{|c|c|} \hline \text{blue balloon} & \text{blue balloon} \\ \hline \end{array} + X = \begin{array}{|c|c|c|} \hline \text{blue balloon} & \text{blue balloon} & \text{red balloon} \\ \hline \end{array}$$

$$X = \text{empty box} - \text{empty box}$$

$$X = \text{empty box}$$

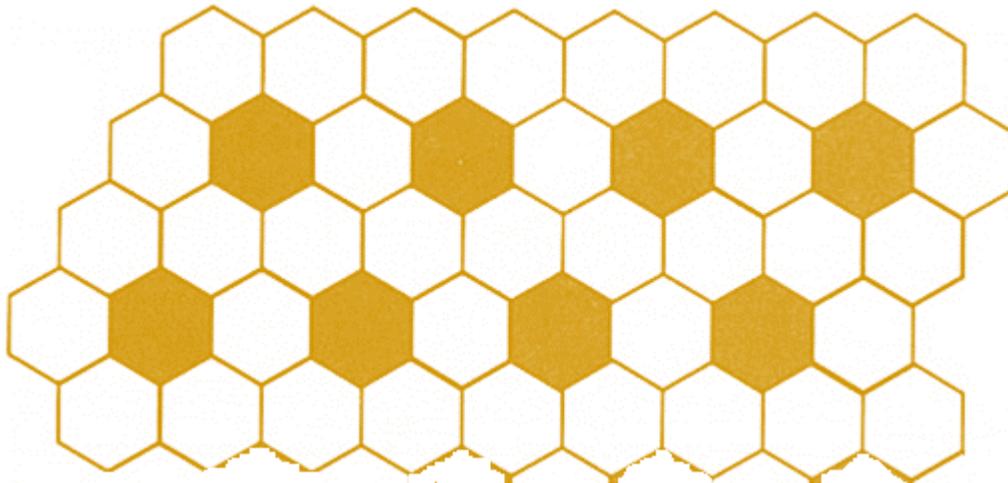

$$X + \begin{array}{|c|c|c|} \hline \text{green leaf} & \text{green leaf} & \text{green leaf} \\ \hline \end{array} = \begin{array}{|c|c|c|c|} \hline \text{green leaf} & \text{green leaf} & \text{green leaf} & \text{orange} \\ \hline \end{array}$$

$$X = \text{empty box} - \text{empty box}$$

$$X = \text{empty box}$$

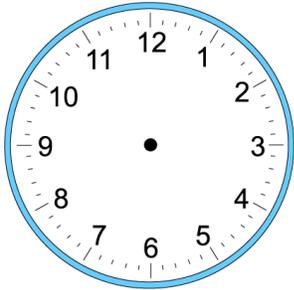

6

Fill out with numbers from 1 to 6 surround every yellow cell. Attention: the adjacent numbers cannot be the same.

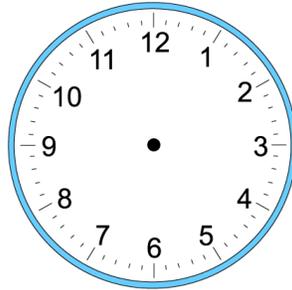

7

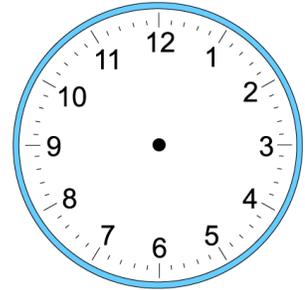

Draw the hands of the clocks below so they show the correct time.

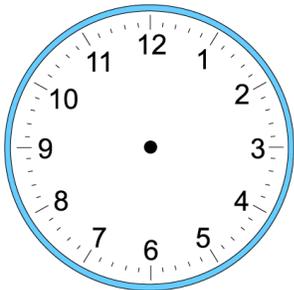

3:00

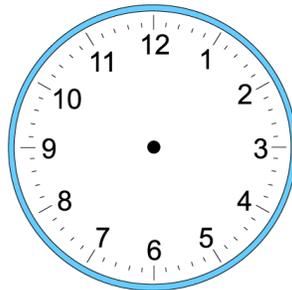

10:40

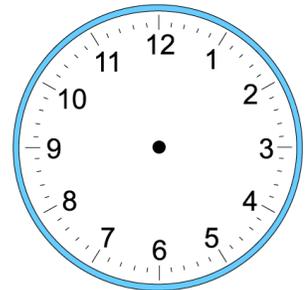

7:20

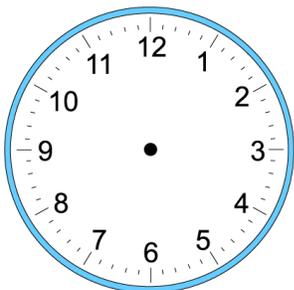

1:15

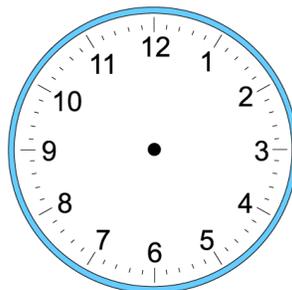

5:35

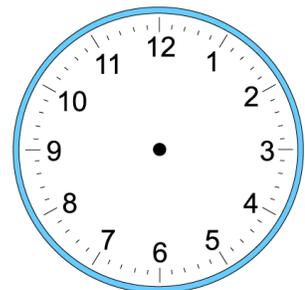

8:30

3:10

7:45

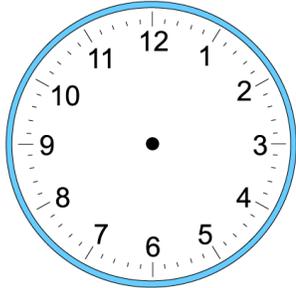

12:00

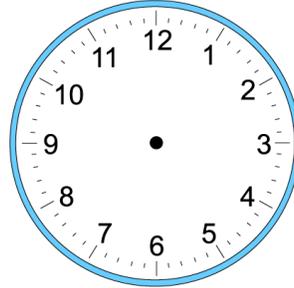

8

A math class starts at 10:00 am. If the class is 1 hour and 15 minutes, what time a clock will show at the end?

Class starts:

Class end:

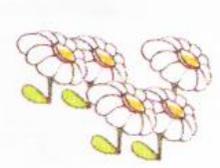

9

Mary drew a picture. There were 5 red flowers in her picture. Then she drew another picture. The second picture had 2 flowers less than the first picture. How any flowers did Mary draw in all?

1) _____

2) _____

Jeffrey and James had 9 fish in two aquariums. They moved 3 fish from one aquarium to another. How many fish in two aquariums now?

1) _____

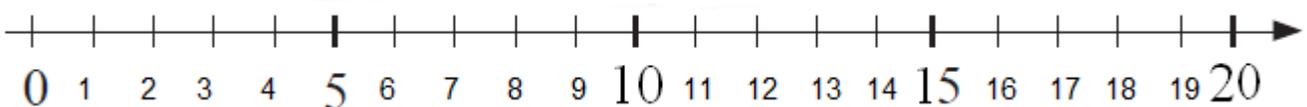

2) _____

Tim, Victor, and Neal have 7 tangerines altogether. Tim has 2 tangerines; Victor has 1 tangerine more than Tim. How many tangerines does Neal have?

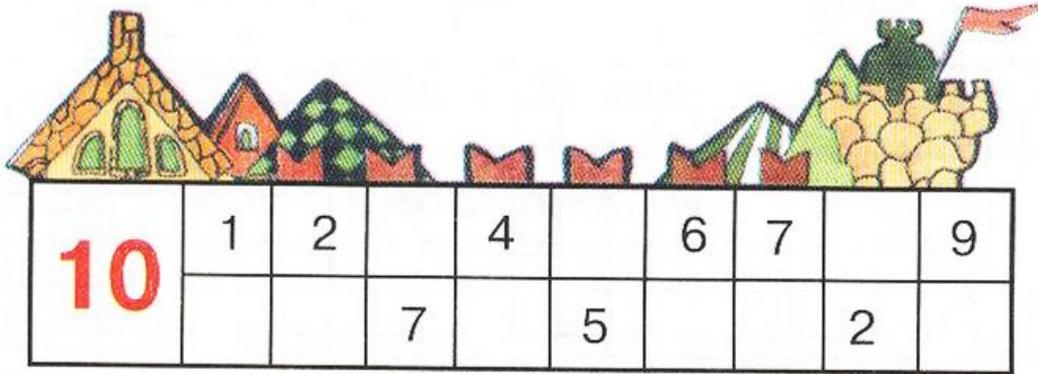

1) _____

2) _____

3) _____

10 Write the pairs of numbers that sum up to 10.

- 11 Color in the circles so that
- a) The red circle is under the yellow one;
 - b) The green circle is under the blue one;
 - c) The yellow circle is under the red one;
 - d) The green circle is under the blue one.
