

NAME:

A. Finish your presentation. Your slide is due by email by Friday, March 23. You will present your topic on Sunday, March 25. Parents are cordially invited!

VERY IMPORTANT: make sure your slide is NOT WIDESCREEN format, it will not fit nicely on our old-fashioned “square” screen...

Take your time and do a great (short!) presentation:

1. 3-5 minutes long (remember, there are many students in the class...)
2. Goal: to research and explain the science behind the phenomenon.
3. **ONLY ONE slide** (.pdf, .doc, .ppt, .pptx)
4. The slide must have a TITLE and your name on it.
5. The slide can include anything relevant; just remember **no overcrowding!**
6. Prepare and recite your (short) speech! Do not just read from the slide...
7. Any questions are welcome as always.

B. On April 8, THE FIRST SUNDAY AFTER THE SPRING BREAK, we will play a HeadBanz GAME again! Please study hard to refresh your memory on everything from atoms to light (Lectures 13 to 22)!!!
