1. Next class we'll start with discussing the sea ice. Watch the following videoclips that were created by NASA using real satellite observations:

a. Arctic:

www.youtube.com/watch?v=k3H7zfabJk8

www.youtube.com/watch?v=QjFfcPC_4JE – in this one, pay attention to the color scheme of the ice, showing it's age.

b. Antarctic:

www.youtube.com/watch?v=y5z-wXI4I90

2. How is the sea ice dynamics (what happens to see ice and when, does it move around and how, and so on) **different in Arctic and Antarctic?**
