

NAME:

---

1. Review Classwork #20. Study the last couple of slides we may have not finished in class.
2. What is “tidal range”?
3. What type of tides (*diurnal, semi-diurnal or mixed*) is observed at the US East Coast?
4. Which celestial body, the Sun or the Moon, has a dominant effect on the tides on Earth?
5. What is “spring tide”? How often is it observed?
