

-----  
NAME:  
-----

**1. Make yourself familiar with the SchoolNova website.**

Go to <https://schoolnova.org> Locate the “Navigation” box (left side of the page). Click on “Homework” then scroll down to find “Earth Science”. The link will take you to our class page. (Another way to get there: go to “Schedule” then find and click “Earth Science”.) Now try all links that appear next to the current lesson date, make sure you can access the Lecture and the Homework. **Print the “GotIt!” page, complete the assignment and bring to next class.**

**2. How would you answer a question “*Where* is Earth?” Try to give the **most precise “address” of Planet Earth** that you can think of. You may want to draw a picture here to illustrate your answer.**
