

**Convert the mixed number fraction to improper fraction.**

$$3 \frac{2}{5}$$

First multiply the denominator times the whole number.

$$5 \times 3 = 15$$

$$3 \frac{17}{5}$$

Next, add your answer from step 1 to your numerator.

$$15 + 2 = 17$$

$$\frac{17}{5}$$

Get rid of your whole number. And now you have your improper fraction.
