

Math Enrichment 4-5

Home Work 10

Problem 1

Color in the circle with the number 5.

Write 5 in the boxes:

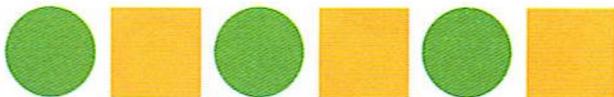

<input type="text"/>				
----------------------	----------------------	----------------------	----------------------	----------------------

Problem 2 Put different colored triangles into the blue bag based on the number drawn on the bag. Put the same amount of circles as the number drawn on the blue bag into the yellow bag. Write the number on the yellow bag.

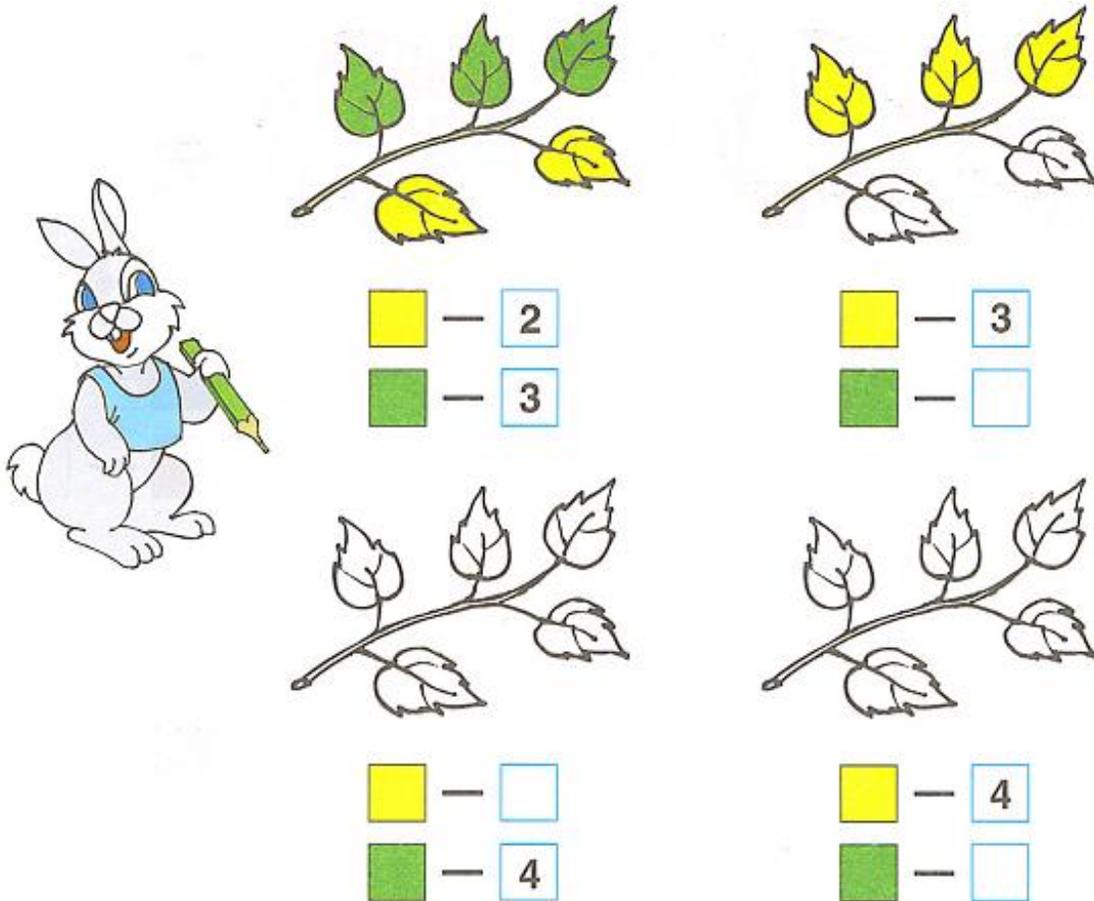

Problem 3

Continue the pattern to make 5 circles and 5 squares in the row.

Problem 4

Help Bunny finish this problem. Color the leaves in each picture according to the numbers in the boxes. Write the missing numbers.

The rabbit is on the left, holding a pencil. There are four branches of leaves to its right. Each branch has a legend below it:

- Branch 1 (top-left): 3 green leaves, 2 yellow leaves. Legend: Yellow square - 2, Green square - 3.
- Branch 2 (top-right): 3 yellow leaves, 2 white leaves. Legend: Yellow square - 3, Green square - [].
- Branch 3 (bottom-left): 5 white leaves. Legend: Yellow square - [], Green square - 4.
- Branch 4 (bottom-right): 4 white leaves. Legend: Yellow square - 4, Green square - [].

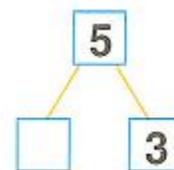

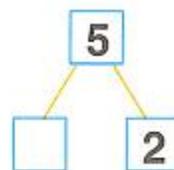

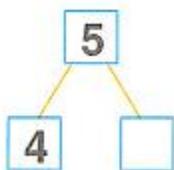

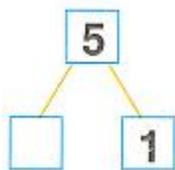

Write the correct numbers into the blue boxes to get **5**.

5 — is **4** and []

5 — is **3** and []

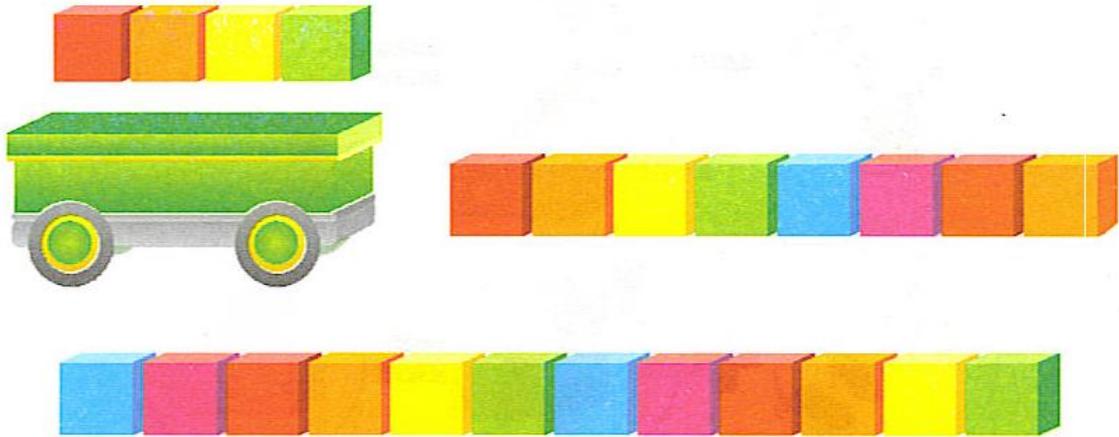

5 — is **1** and []

5 — is **2** and []

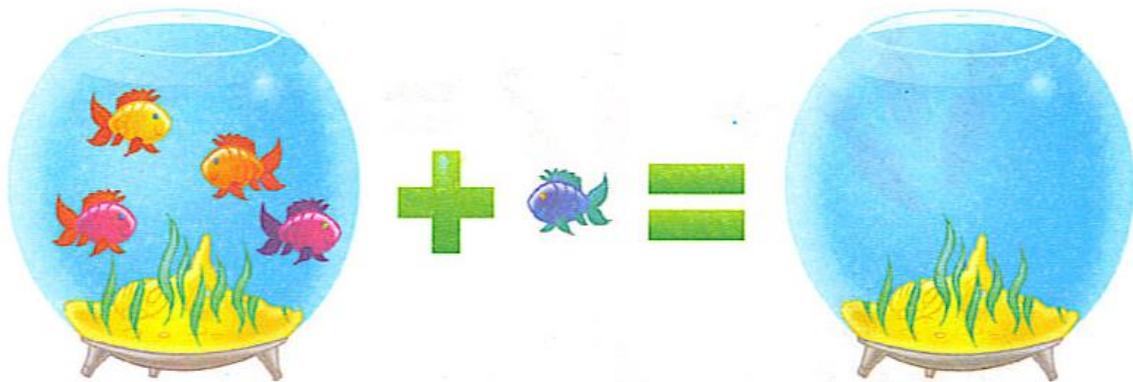

Problem 5

The wagon can fit only 4 cubes. How many trips do you need to make in order to move out all of the cubes?

Problem 6

Draw the answer for this picture.

Problem 7

Draw the pathways to each house.

Which path is the longer one? Color it in brown. Which house is to the left (color it yellow) and to the right of Teddy?

Problem 8

Teddy is carrying the basket in his left paw. Color in the mushrooms to the right of Teddy yellow and the mushrooms on the left red.
