**Give examples of two (one small, one big) NON-LIVING and two (one small, one big) LIVING things that can be found in each of the following environments:**

- a. In the air**
- b. In the ocean**
- c. In open space**
- d. Underground**
- e. In the desert**
- f. In your backyard**
- g. In the jungle**
- h. In the refrigerator**

\*Note that not all environments will have living things! It's OK to say "no examples" where applicable.
