---

1. What is subduction?
2. Volcanic island arcs are formed close to a \_\_\_\_\_ (*a very deep depression in the oceanic floor marking the converging plates boundary*).
3. Where are most of Earth's active volcanoes found?
4. Reading Material "Volcano Parts" (can be found on the school website on our class homework page or use the link provided in the assignment in Classroom), be ready to answer questions during our next lesson.
5. Watch "selected volcano videos" (links are given in the Reading Material; you may need to copy or hand-type them into your browser).
