
NAME:

1. Make yourself familiar with the SchoolNova website.

Go to <https://schoolnova.org> Locate the “Navigation” box (left side of the page). Click on “Homework” then scroll down to find “Earth Science”. The link will take you to our class page. (Another way to get there: go to “Schedule” then find and click “Earth Science”.) Try all links that appear next to the current lesson date; make sure you can open and view the Classwork presentation (slides that were shown during class) and the Homework (should look exactly like this page).

2. How would you answer a question “*Where* is Earth?” Try to give the **most precise “address” of Planet Earth that you can think of. You may want to draw a picture here to illustrate your answer.**
