

Math Enrichment 4-5**Homework 13****Problem 1**

On each string draw the same amount of beads as the number in the box.

Problem 2 Divide the apples between all of the kids.

Problem 3 Count and find out how many there are:

Big leaves

Small leaves

Big yellow leaves

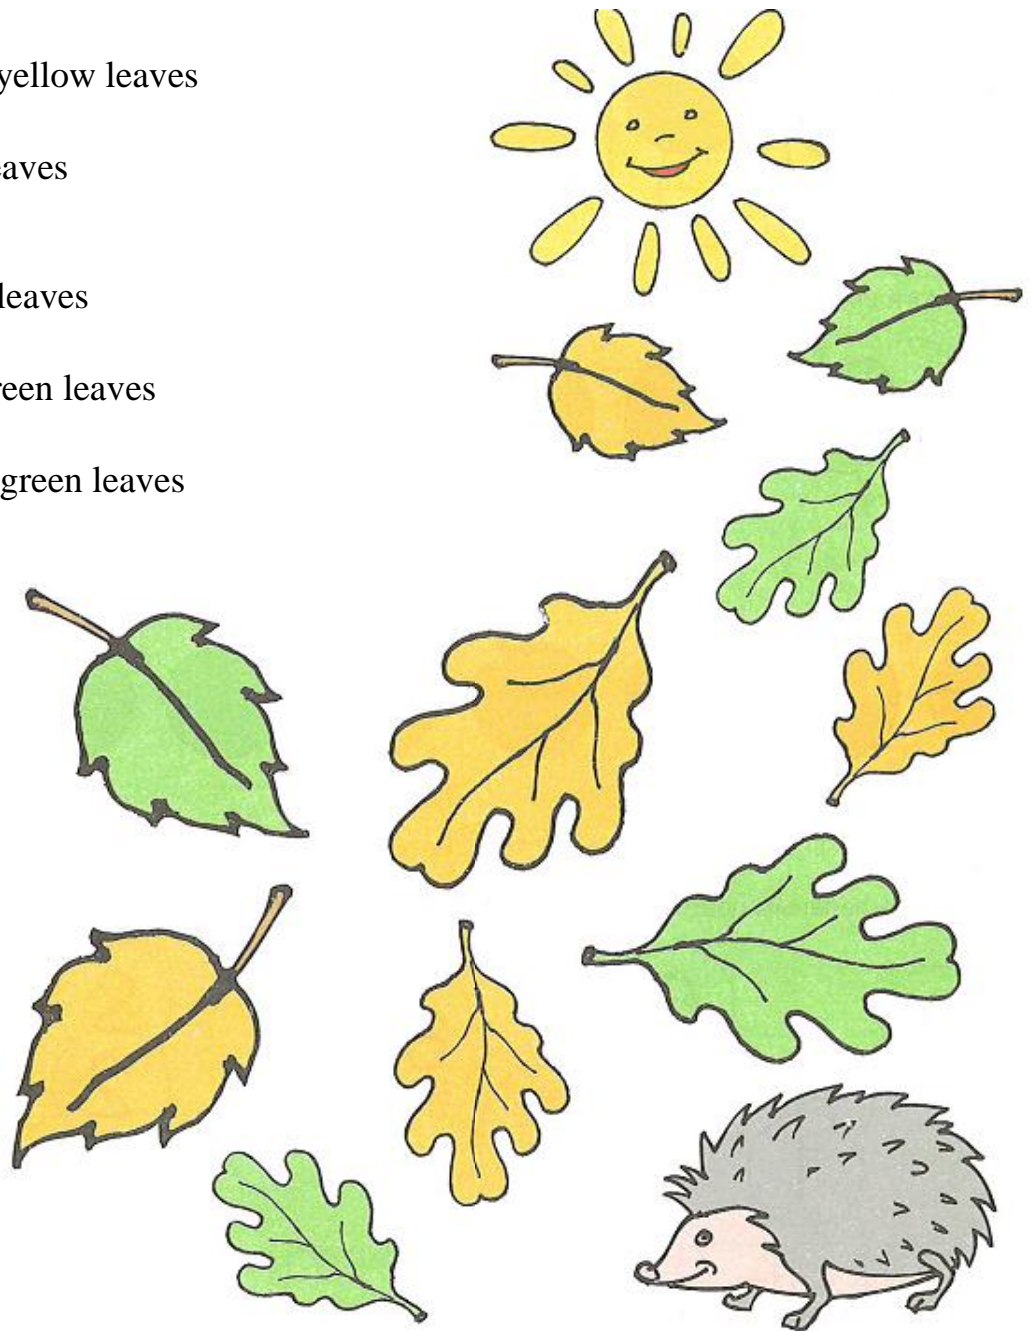

Small yellow leaves

Oak leaves

Birch leaves

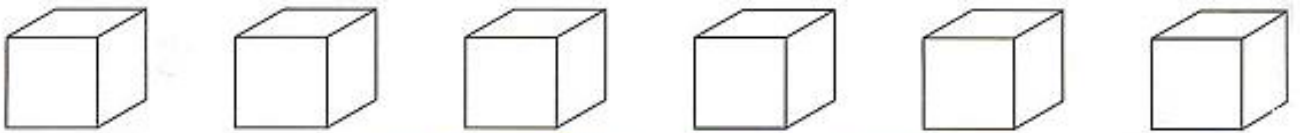

Big green leaves

Small green leaves

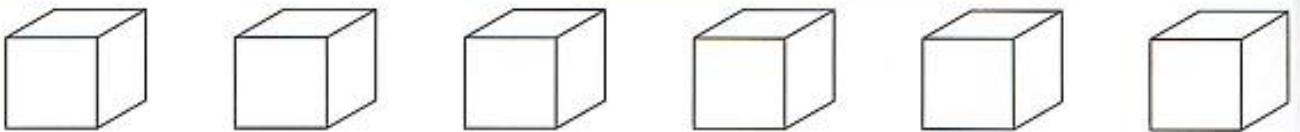

Problem 4

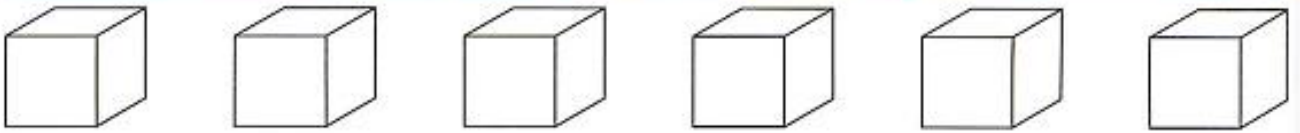

Look at the numbers in the boxes and color in the cubes in each row. Write how many green and yellow cubes you got.

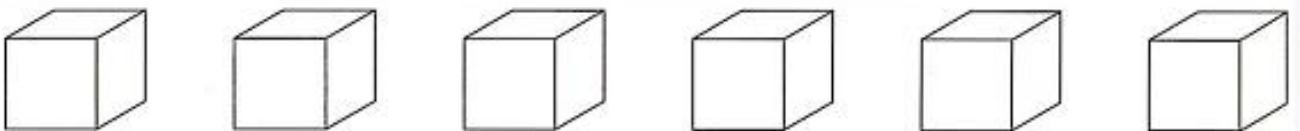

$$\text{Green cube} - \square \quad \text{Yellow cube} - \boxed{3}$$

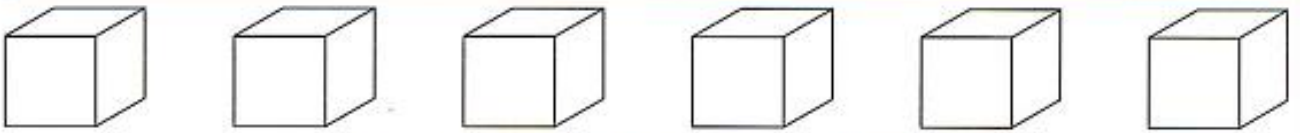

$$\text{Green cube} - \boxed{2} \quad \text{Yellow cube} - \square$$

$$\text{Green cube} - \square \quad \text{Yellow cube} - \boxed{2}$$

$$\text{Green cube} - \square \quad \text{Yellow cube} - \boxed{1}$$

$$\text{Green cube} - \square \quad \text{Yellow cube} - \boxed{5}$$

Problem 5 Color in the circle that has the number 6 in blue.

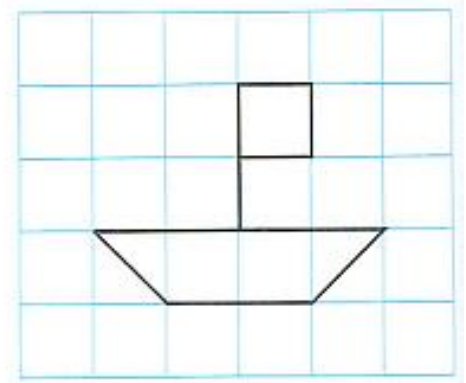

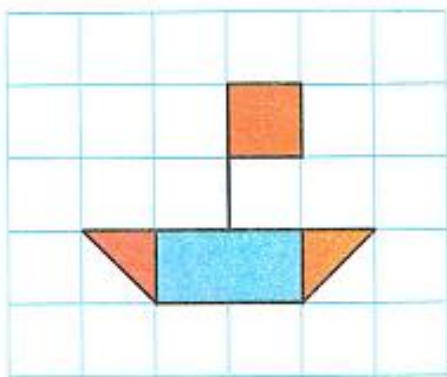

Write the number 6 in the boxes

Problem 6 Write the number of shapes under each picture and compare them by putting $>$, $<$, $=$, in between.

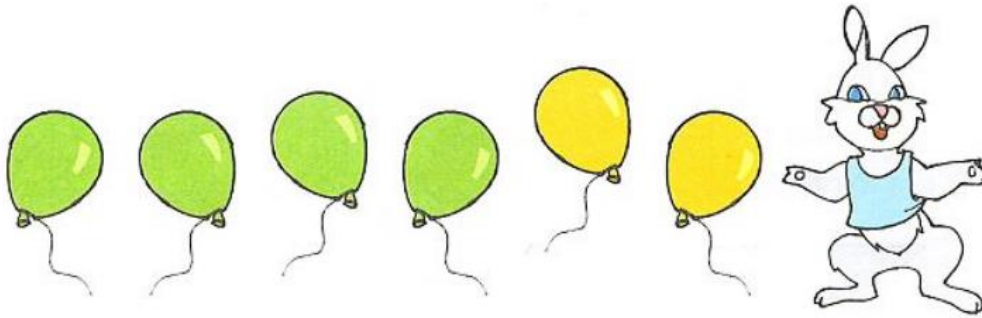

Three pairs of shape groups are shown, each with a corresponding empty box for counting and comparison:

- Group 1: 5 white triangles vs 2 black triangles. Boxes:
- Group 2: 4 black circles vs 5 white circles. Boxes:
- Group 3: 4 black squares vs 4 white squares. Boxes:

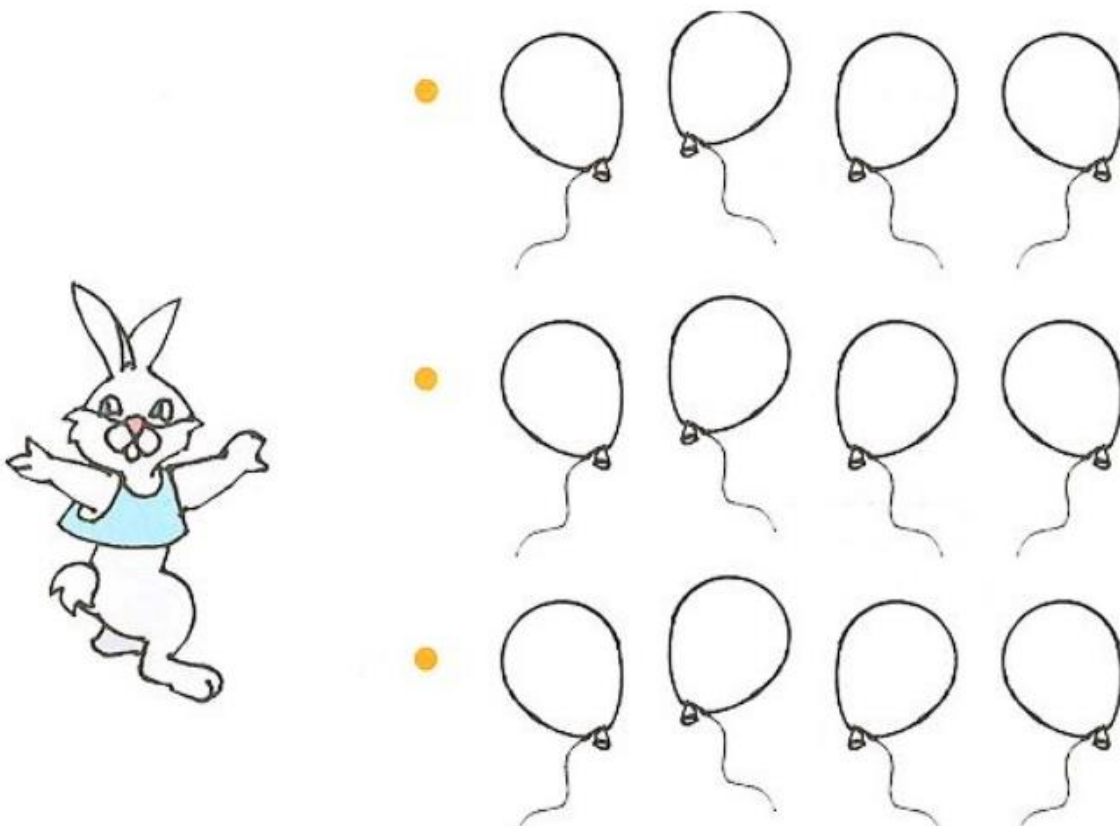

Problem 7 Help the Teddy Bear make the two pictures look the same:

Problem 8 Bunny has 6 balloons.

He gave 4 balloons to his friend Bear. Color in all of the possible different ways that he can give the balloons (do not repeat the color pattern).

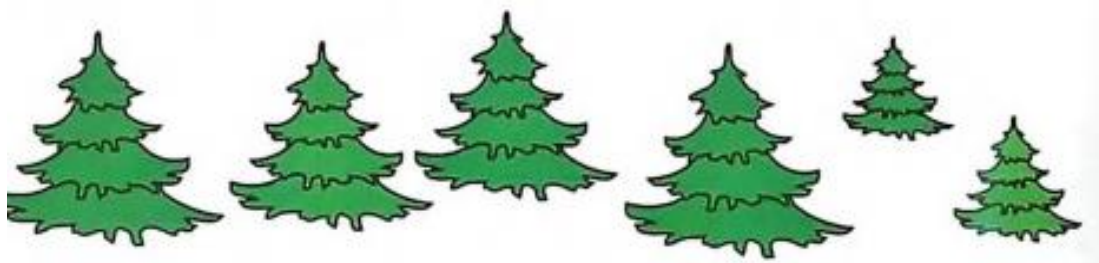

Problem 9 Look at the picture. Try to make a math problem and solve it.

How many  does Julian have?

			=	
--	--	--	---	--

Circle the smallest pine tree.

Color the stripes that are longer than the colored one in yellow and those that are shorter than the colored one in blue.
