

-----  
NAME:  
-----

**1. Make yourself familiar with the SchoolNova website.**

Go to <https://schoolnova.org> Locate the “Navigation” box (left side of the page). Click on “Homework” then scroll down to find “Science”. The link will take you to our class page. (Another way to get there: go to “Schedule” then find and click “Science”.) Try all links that appear next to the current lesson date; make sure you can open and view the Classwork presentation (slides that were shown during class) and the Homework (should look exactly like this page).

**2. Reading Material “Making Sense of Your Five Senses”** (this is the third link you will find next to the current lesson date).

**Questions:**

**A. Which of the five senses work by “capturing” particles or molecules from the environment?**

**B. Which of the five senses work from a distance?**
