
PLEASE SUBMIT YOUR WORK THROUGH GOOGLE CLASSROOM

1. Login to your SchoolNova Google Classroom and open your **Science C (online)** class. See if you can access the first Lecture (slides shown today in class) via a link posted in the stream (can be found under “Classwork” tab). This is how you can always review the material discussed in class.
2. Locate Homework #1 (can be found under “Classwork” tab). Pay attention to the due date. Open the homework assignment and **comment on it in the space provided** (for example, write a question you’d like to be answered during our Science course or just tell your favorite science joke 😊). This is how you can easily communicate with me regarding any assignment; you can choose for your comment to be visible to everybody in the class or just to the teacher (private comment). There is no need to attach any work this time.
3. Locate **Reading Material “Making Sense of Your Five Senses”** – open, read and be ready to discuss during our next class.
4. When you are done with all of the above, **click to “turn in” or “mark as done”**.
