

---

PLEASE SUBMIT YOUR WORK THROUGH GOOGLE CLASSROOM

---

**1. Make yourself familiar with the SchoolNova website.**

Go to <https://schoolnova.org> Scroll down to locate the “Navigation” box (left side of the page). Click on “Homework” then scroll down to find “Earth Science B”. The link will take you to our class page. (Another way to get there: go to “Schedule” then find and click “Earth Science B”.) Try all links that appear next to the current lesson date; make sure you can open and view the Classwork presentation (slides that were shown during class).

**2. Make yourself familiar with our Google Classroom.**

See if you can access Classwork #1 from the classroom stream (also can be found under “Classwork” tab). Review the slides.

**3. “Where is Earth?”** Think how you can describe the most detailed “address” of Planet Earth in the Universe 😊. **Enter your answer as a private comment under Homework 1 post in the stream.**

**4. When you are done with all of the above click to “turn in” or “mark as done”.** There is no need to attach any work this time.
