

NAME:

Next time we will begin to discuss States of Matter, also known as States of Aggregation.

Give SIX (6) specific EXAMPLES of objects or substances that illustrate matter in different states (two examples per state). Please do NOT list water and ice...be creative! You can find many good examples in your own kitchen 😊

Example 1 (SOLID)_____

Example 2 (SOLID)_____

Example 3 (LIQUID)_____

Example 4 (LIQUID)_____

Example 5 (GAS)_____

Example 6 (GAS)_____
