
NAME:

1. Have fun reading “10 Freakishly Large Single-Celled Organisms” 😊

<https://listverse.com/2016/07/01/10-freakishly-large-single-celled-organisms/>

2. Which of the organisms described above is “the most freakish”, in your opinion?

3. Explore relative sizes and shapes of various cells using the interactive tool at:

<https://learn.genetics.utah.edu/content/cells/scale/>

(the slider at the bottom of the page allows you to zoom in and out to change the scale)
