

NAME:

1. **Review Classwork #26**. Finish the slides that were not covered in class.
2. Describe **three stages** of a **thunderstorm lifecycle**.
3. List and describe as many **thunderstorm hazards** as you can.
4. Refer to the last Slide (“US Tornado Frequency”) of Classwork #26.
Approximately how many EF1 tornadoes are recorded in the US **per year**?
(Hint: pay attention to the *time period* that the graph references! Show your work!)
