

Homework 18

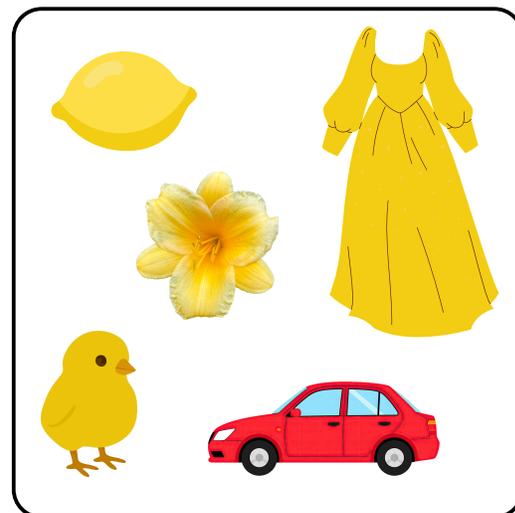

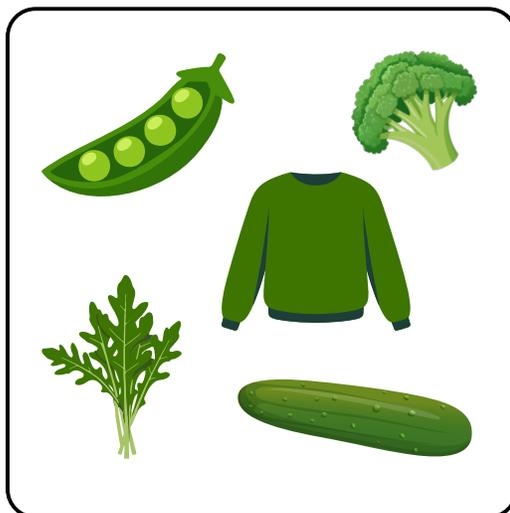

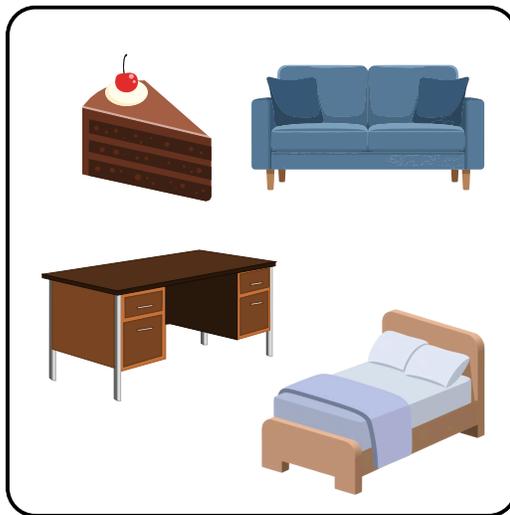

Problem 1

Color in the roof of the 1st house in **YELLOW**, the roof of the 2nd house in **GREEN**, the roof of the 3rd house in **RED**, the roof of the 4th house in **BLUE** and the roof of the 5th house in **ORANGE**.

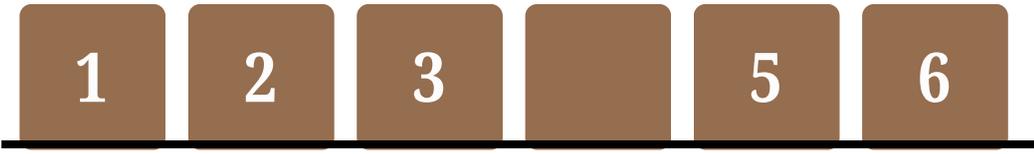

Problem 2

Which object does not belong in each group? Why?

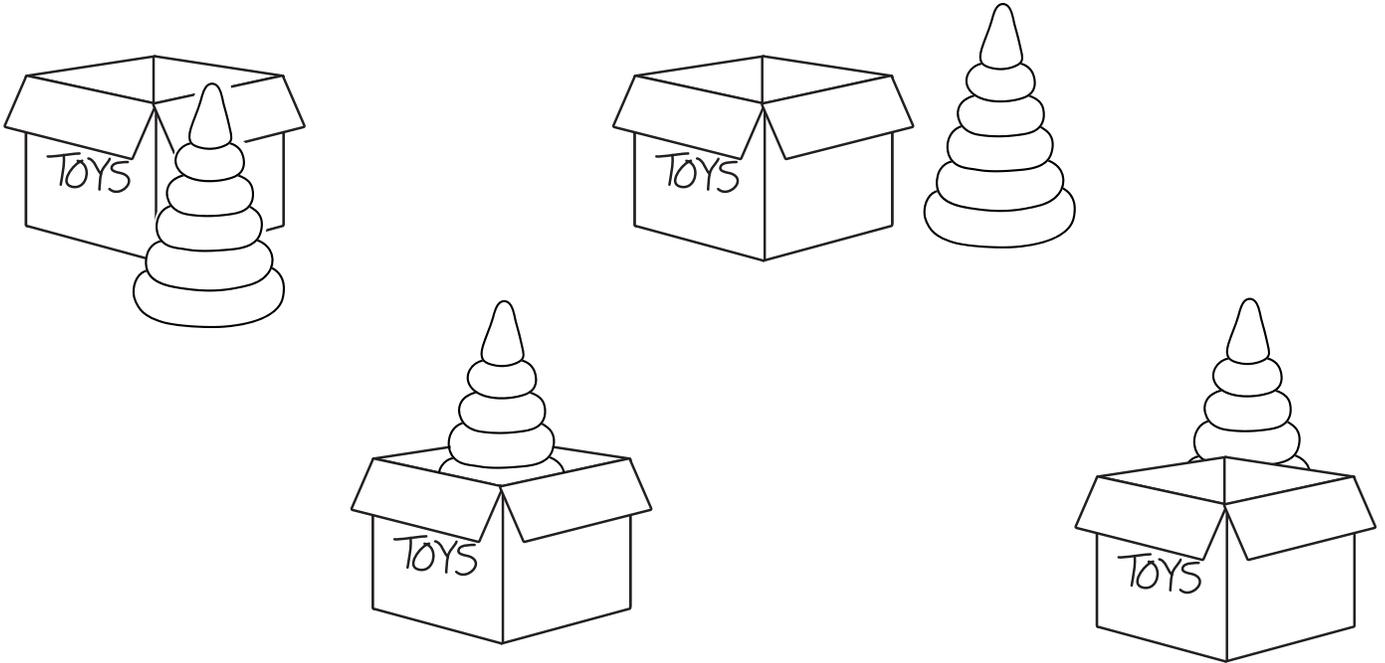

Problem 3

In the chocolate store, there are boxes with candies on the shelves. The number on each box says how many candies are inside. Find the places for the missing boxes.

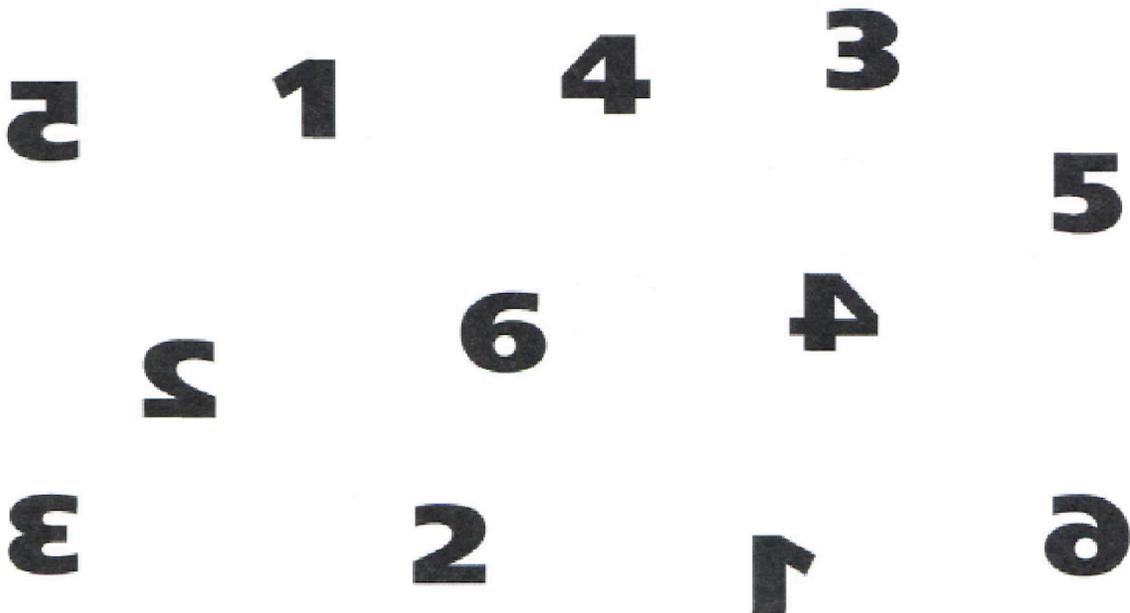

Problem 4

Color the toy pyramid that is inside the box in **RED**, behind the box in **GREEN**, in front of the box in **BLUE** and next to the box in **YELLOW**. Ask you child to identify the toy pyramid to the RIGHT of the box.

Problem 5

Cross out all the numbers that are written wrong. Spot the correct numbers and circle them.

Problem 6

Draw a line from each picture to the letter that makes its beginning sound.

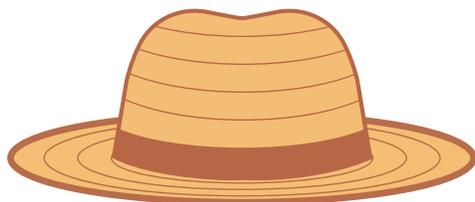

G

H

I

Problem 7

Cut out the pictures from the row below and glue them to continue the pattern.
