

Homework 19

Problem 1

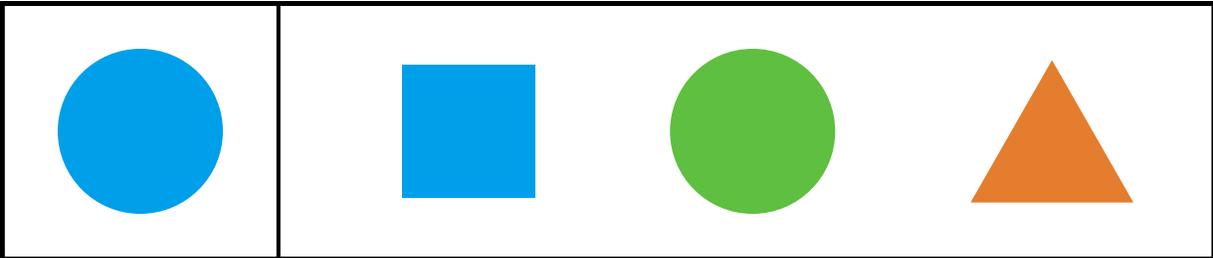

Look at these professionals. What is their job? What object belongs to whom?

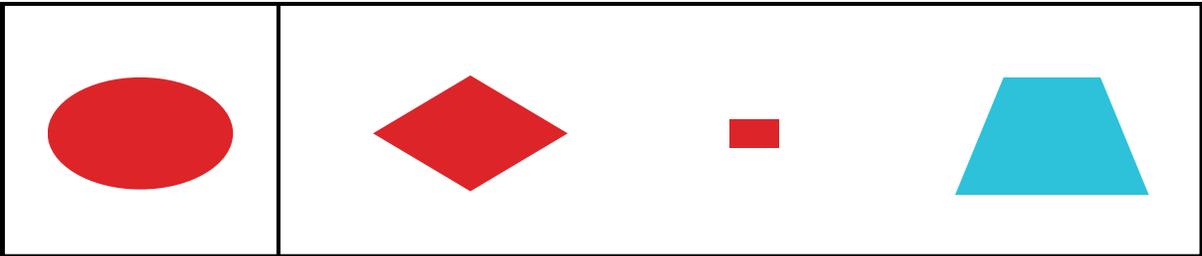

Problem 2

Let's review the shape, size and color. Study the first object in the line (in the box) and circle:

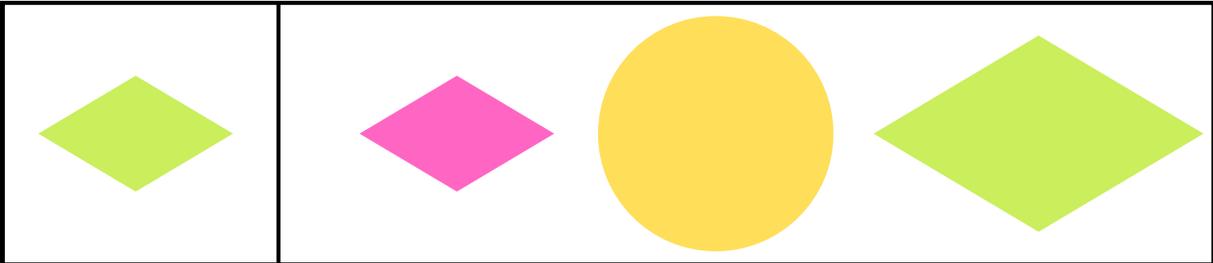

- the object of different **color** only

- the object of different **shape** only

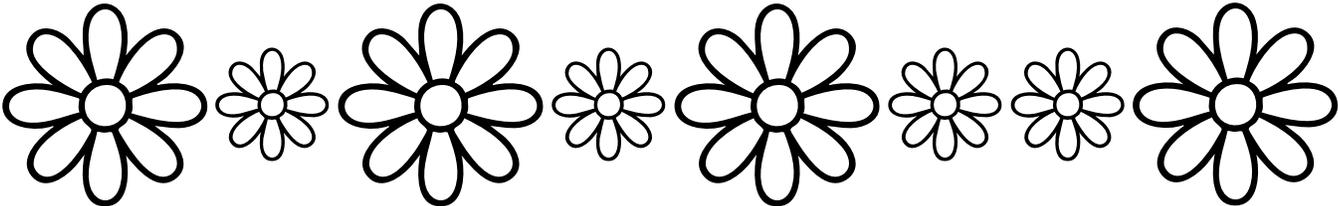

- the object of different **size** only

Problem 3

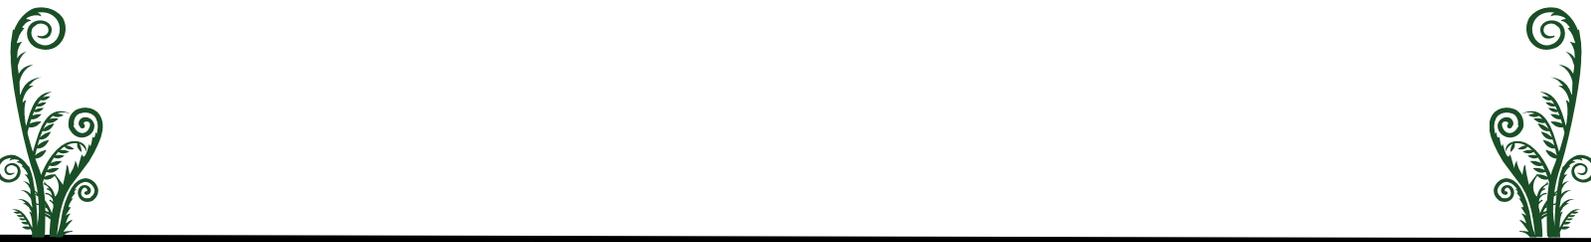

Color the pattern and find a mistake in it (circle it).

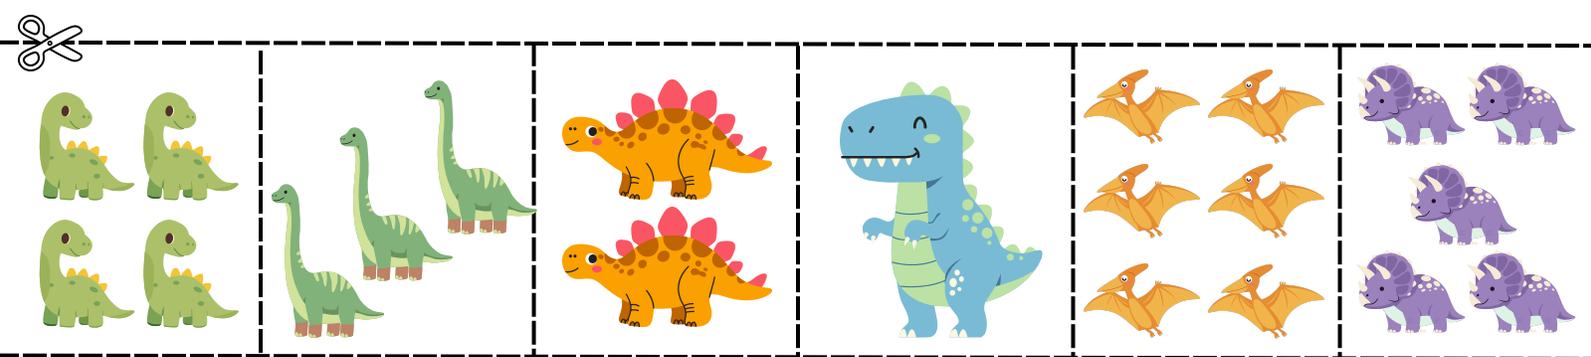

Problem 4

Cut out the pictures and paste them above the ground line in increasing order: start with the group that has the smallest number of dinosaurs and move on to the group that has the largest number of dinosaurs.

Then, paste the matching numbers under the pictures.

--	--	--	--	--	--

5	1	4	2	3	6
---	---	---	---	---	---

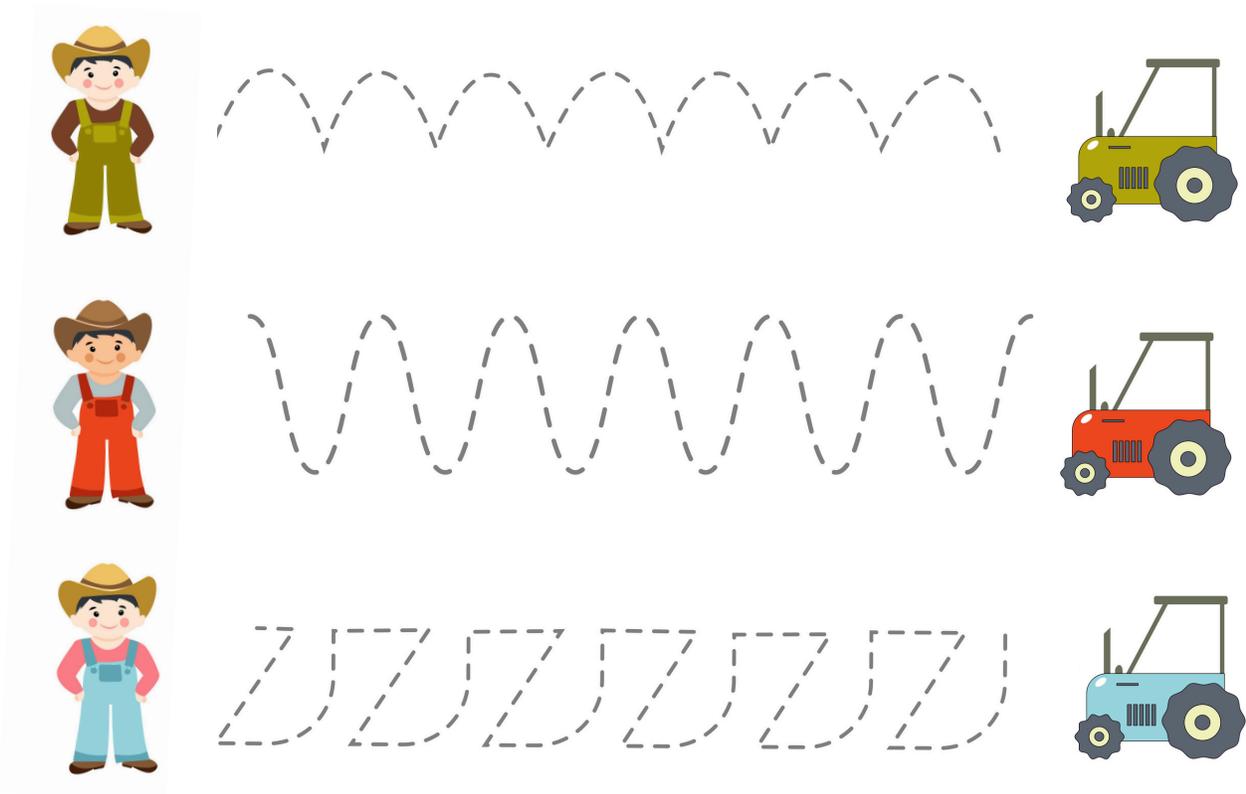

Problem 5

Find the missing pieces.

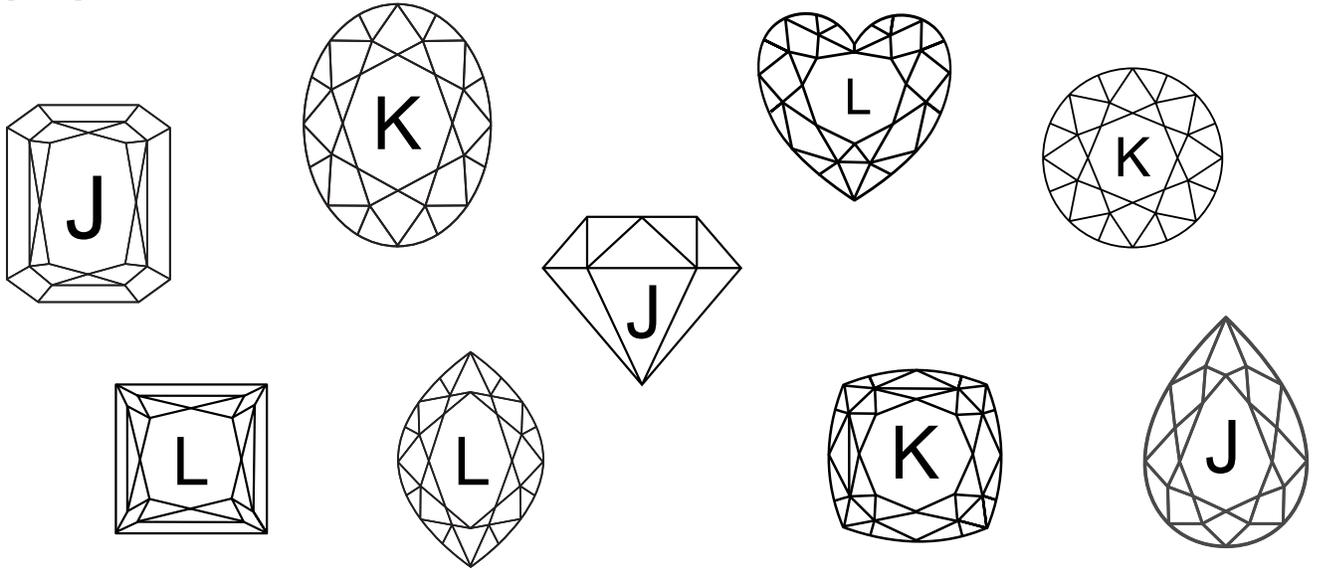

Problem 6

Help the farmers to get to their tractors - trace the paths.

Problem 7

Color all the jewels with letter **J** engraved in **blue**, all the jewels with letter **K** engraved in **green**, and all the jewels with letter **L** engraved in **purple**.

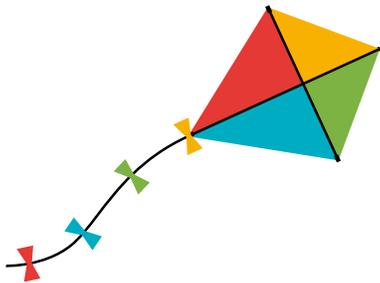

Problem 8

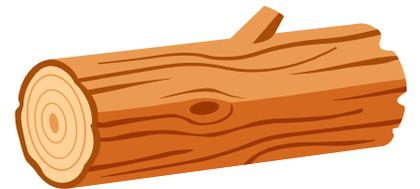

Connect the object to the letter it begins with.
