

Homework 21

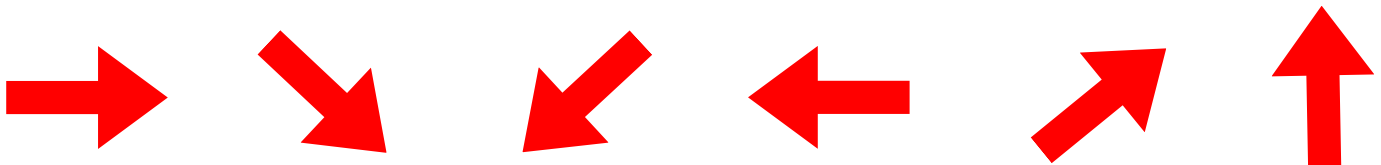

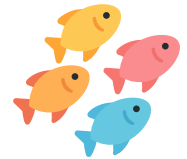

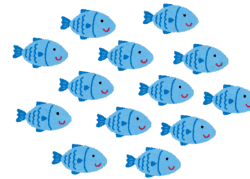

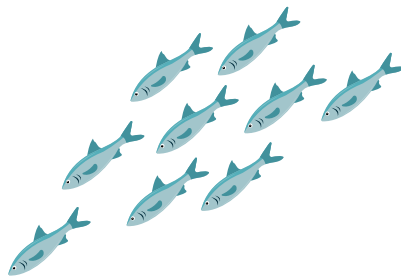

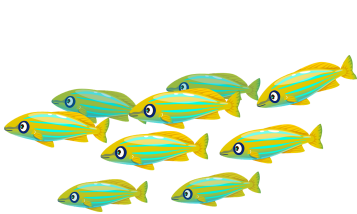

Problem 1

Color as many rain drops under each cloud as the number on it says.

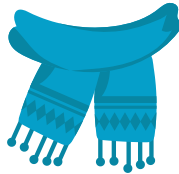

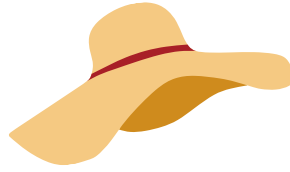

Problem 2

Connect each group of fish with the direction it is swimming into. (Be careful - you don't need all of the arrows.)

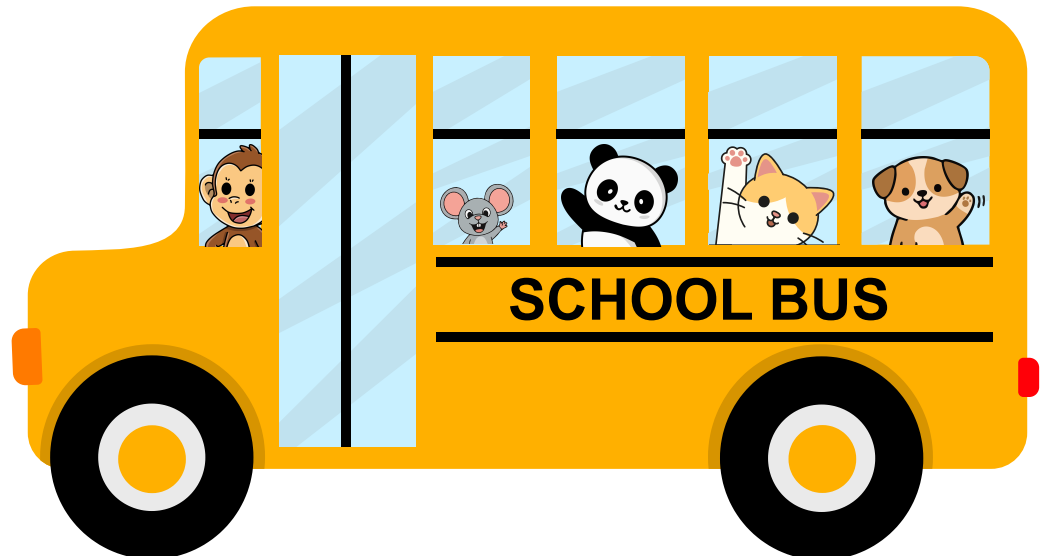

Problem 3

Circle the picture that does not belong to the row.

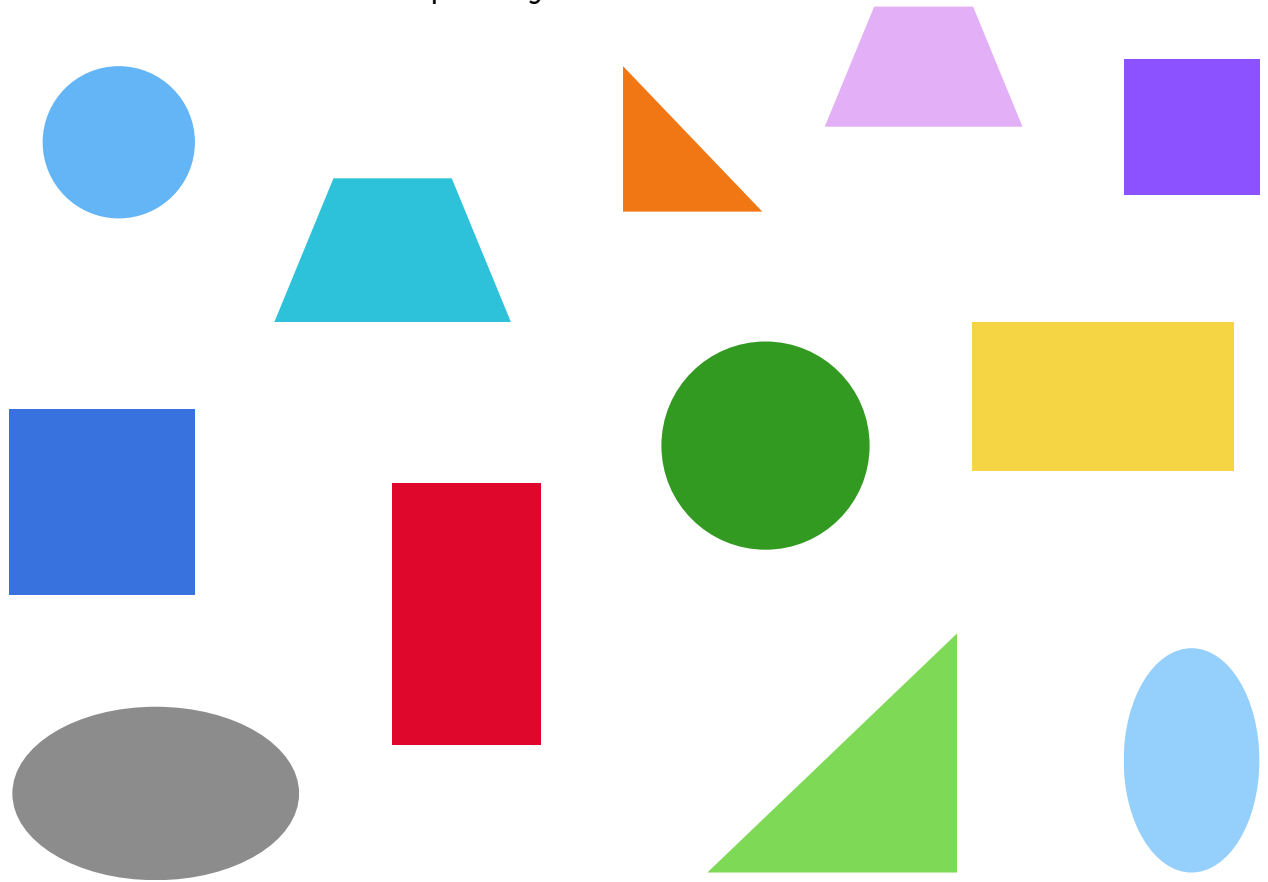

Problem 4

Count how many animals are inside the bus.
Which direction is the bus heading to: Left or Right?
Let's review ordinal numbers (connect by the line):
Who is sitting in the **1st** passenger seat?
Who is sitting in the **2nd** passenger seat?
Who is sitting in the **3d** passenger seat?
Who is sitting in the **4th** passenger seat?
Who sits in the middle of the bus?

Problem 5

Connect the same shapes by a line .

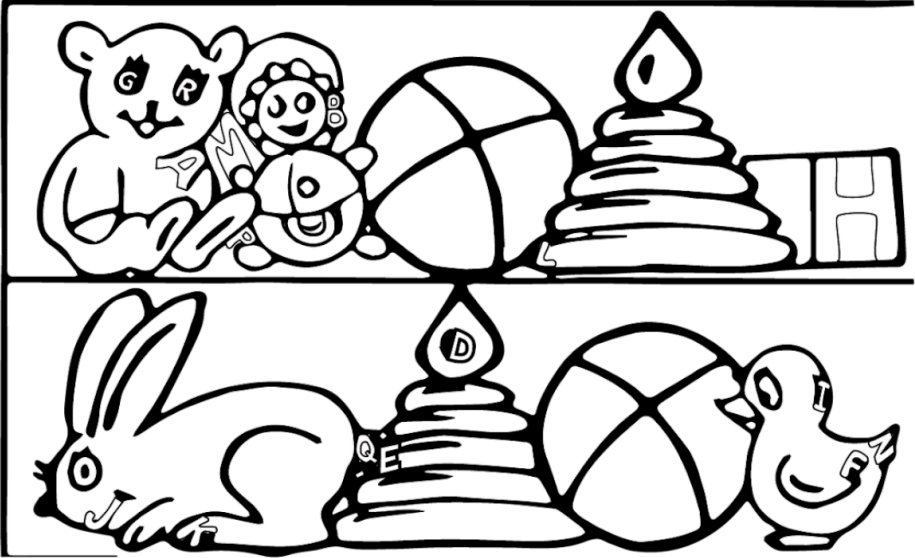

Problem 6

In each row, circle the objects that start with the given letter.

P			
Q			
R			

Problem 7

Find and color the letters from A to R hidden in the picture.

Problem 8

Trace the lines and color the picture.
