

# Homework 23

## Problem 1

Circle the objects that belong to the outer space.

## Problem 2

Count the objects in the group and circle the correct number.

3	2	4

5	3	6

6	3	5

5	4	7

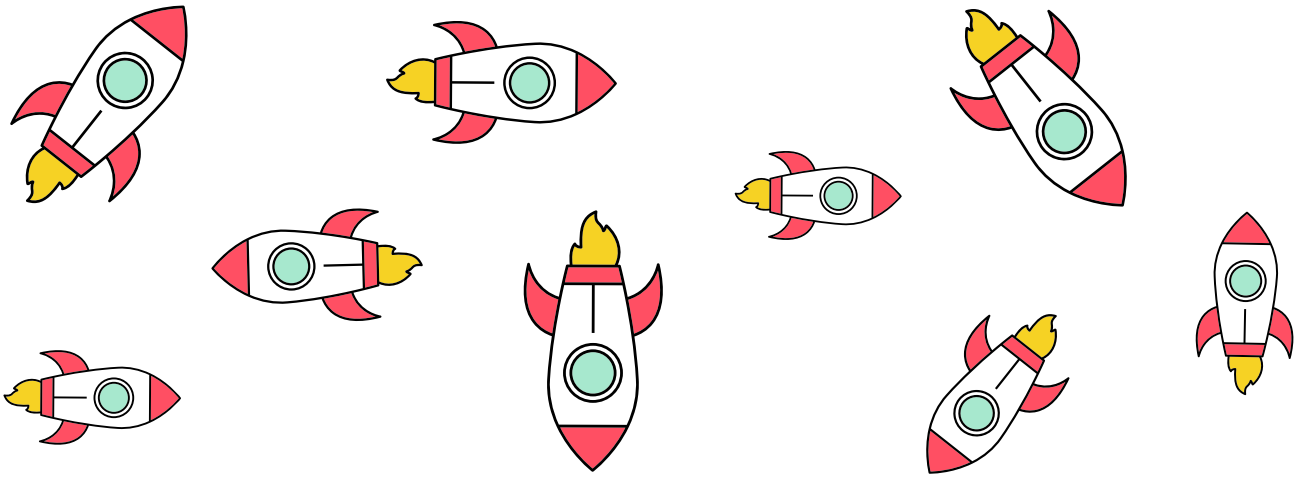

6	7	4

5	6	4

### Problem 3

Circle only the rocketships that fly to the right.

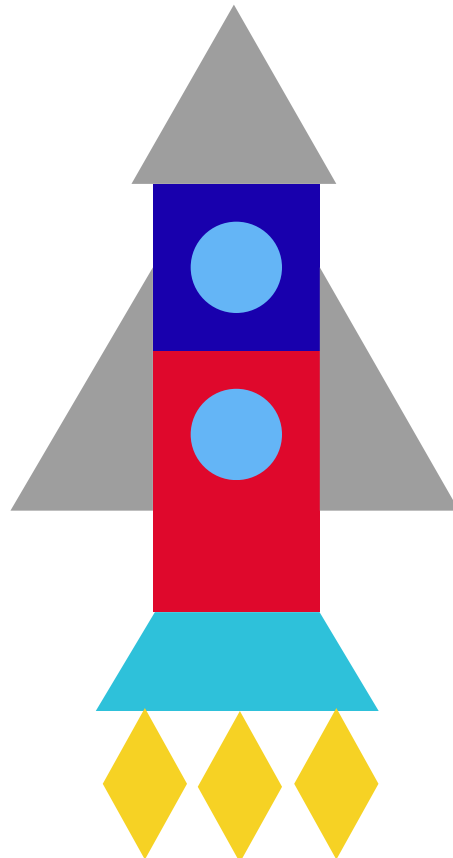

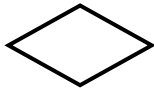

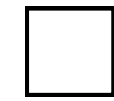

How many rocketships have you circled? Circle the number below.

1   2   3   4   5   6   7

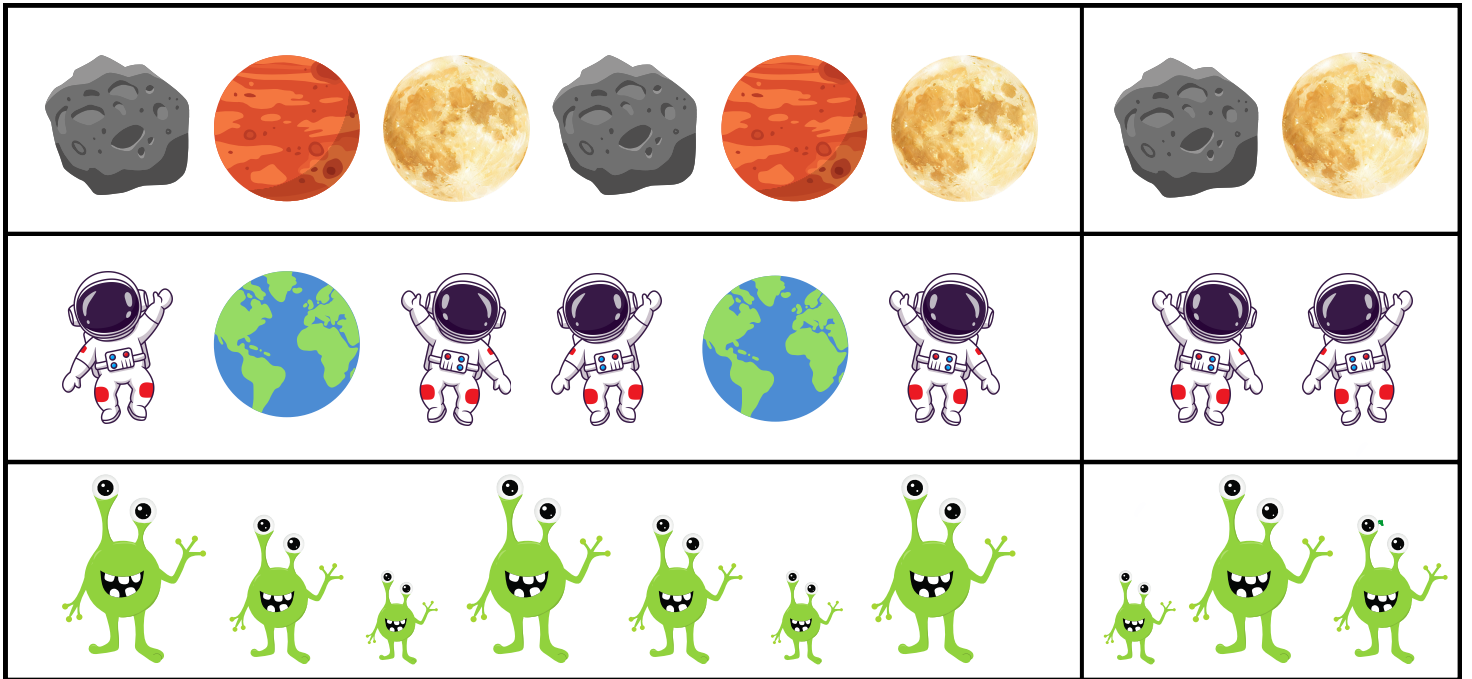

### Problem 4

Circle only the shapes that you can find in the picture of the rocketship.

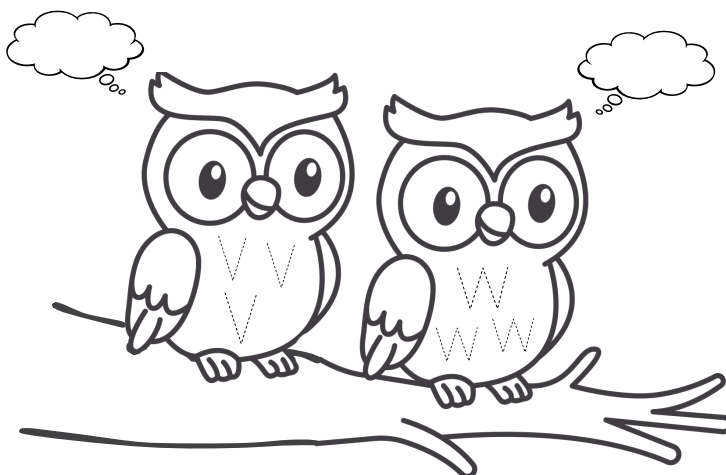

## Problem 5

What comes next in the pattern?

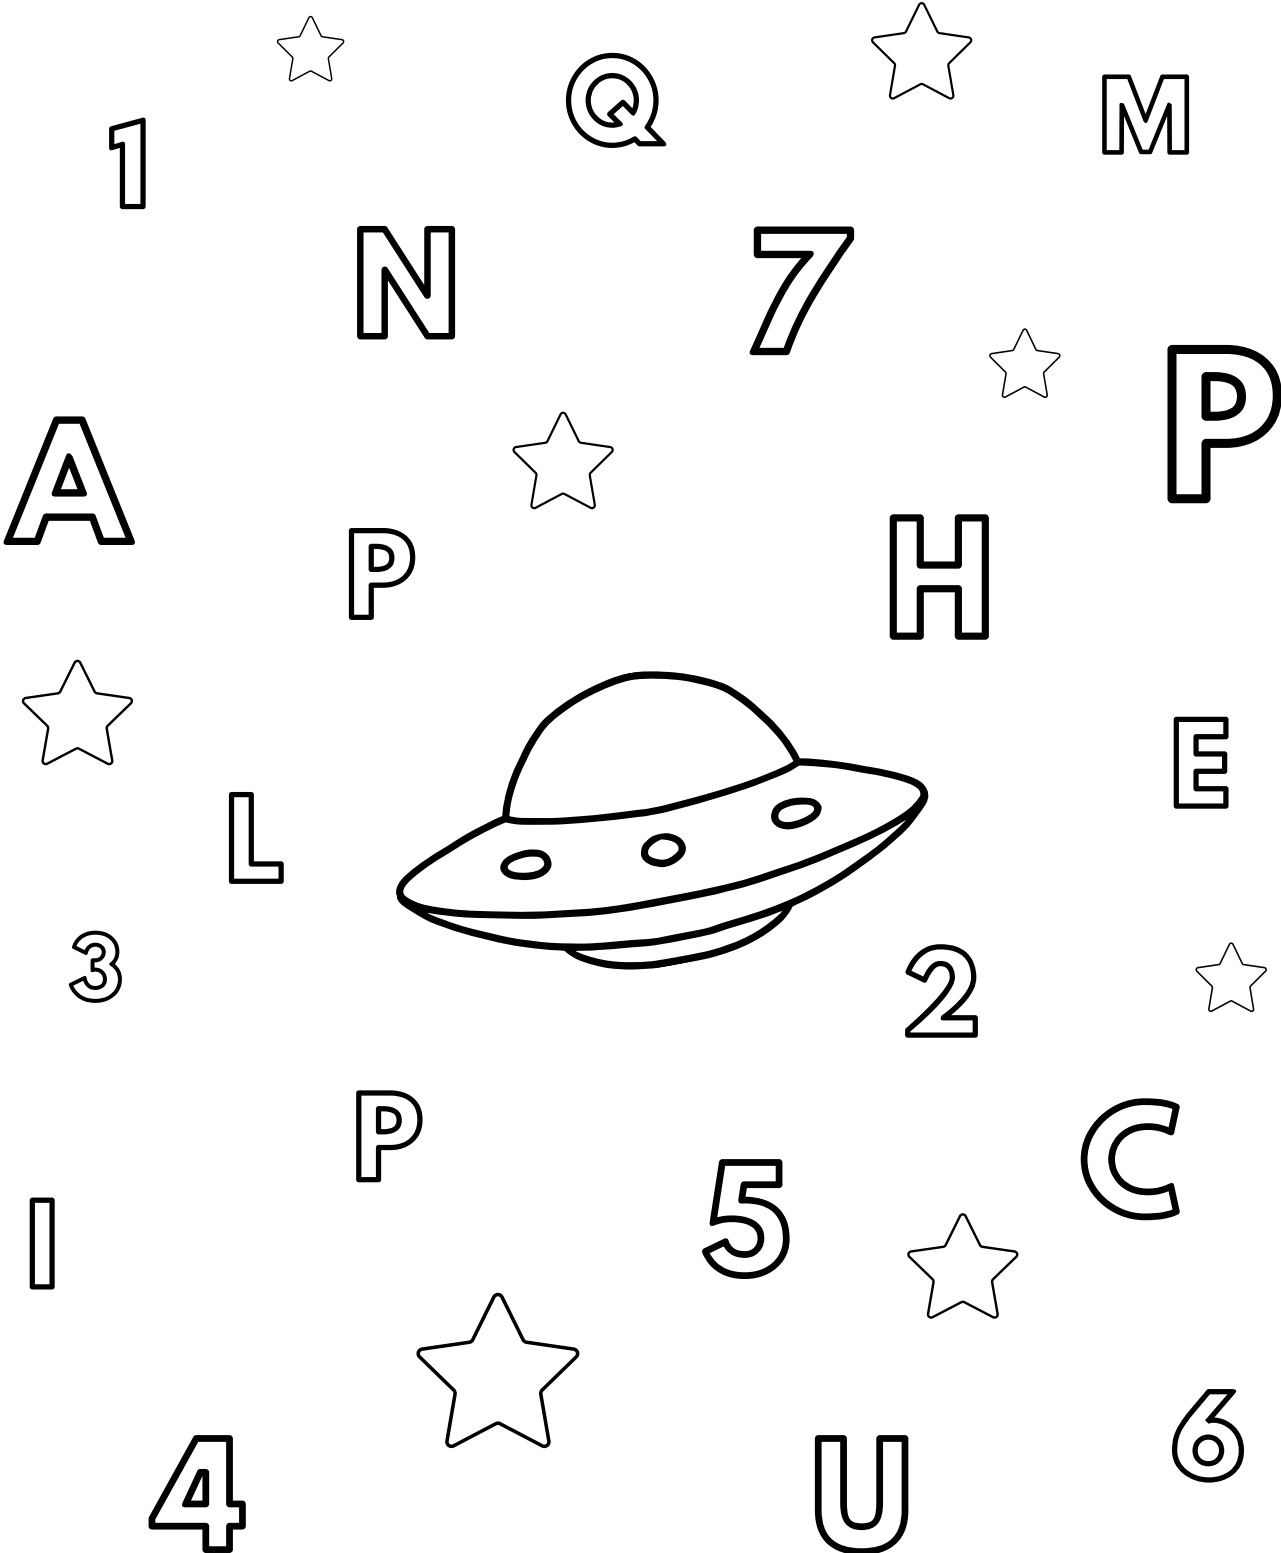

## Problem 6

Trace the feathers on the owls. What objects is each owl thinking about? (Objects starting with the same letter that the owl has on its body.) Draw the lines from the pictures to the owls.

**Problem 7**

Color all the numbers in gray (as if they were asteroids) and all the letters in yellow (as if they were stars).

# Problem 8

Scissors skills: cut through each line to lead the rocket to the moon.
