

Problem 2

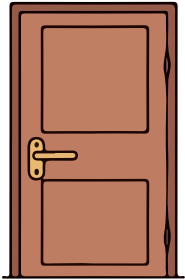

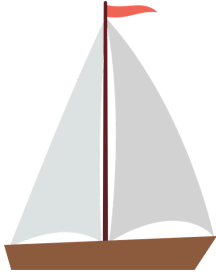

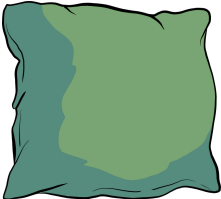

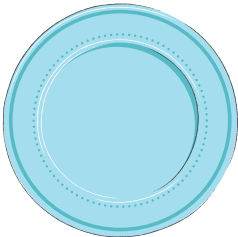

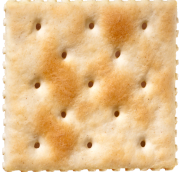

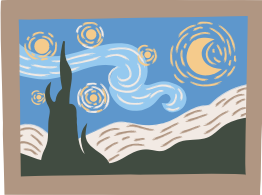

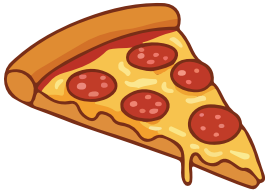

Color using the color code.

- 1- 
- 2- 
- 3- 

Problem 3

There are pairs of objects that have something in common. Find them! (Hint: think of the shape.)

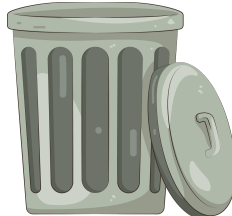

Problem 4

I Spy! In your environment (at home, in the neighborhood, while travelling), find the objects shown below. Check the ones that you've found!

recycling bin

trash can

bottle recycling vending machine

solar panels

reusable grocery bag

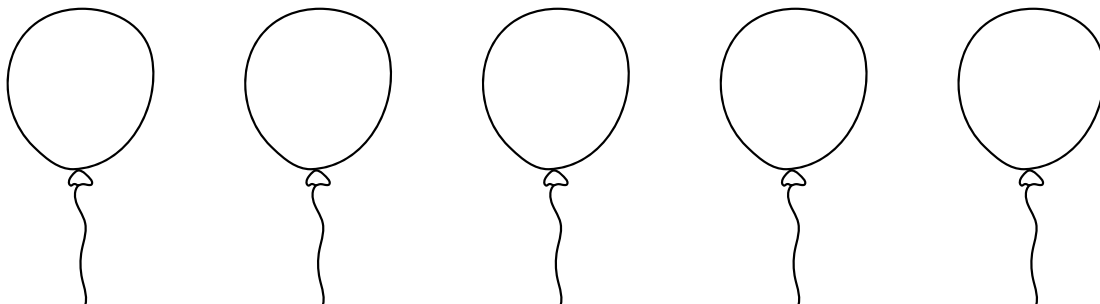

bicyclist

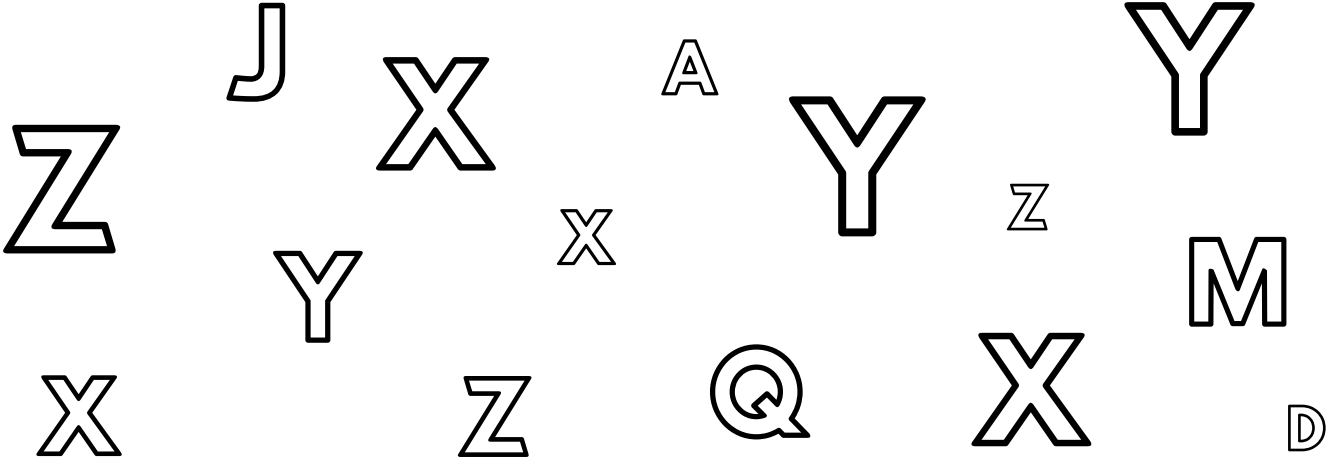

Problem 5

Color the the third balloon in the row in red, the most left balloon in the row in green, the most right one - in blue. Color the balloon that is between the green and the red balloons in orange. What is the number of the ballon that stayed white? Put as many dots in the box.

Problem 6

Circle all the X's, cross out all the Y's, color all the Z's.

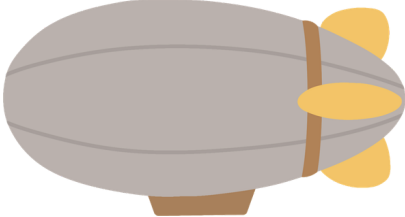

Problem 7

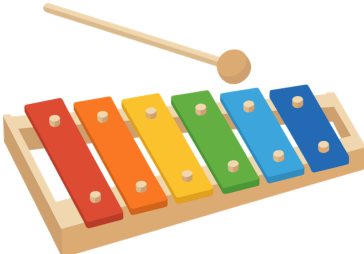

Connect the object to the letter it begins with.

X

Y

Z
