

Homework 26

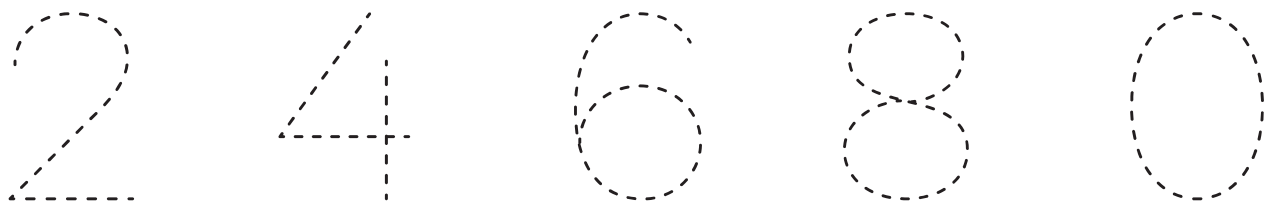

Problem 1

Color the objects that look like a straight line in blue and the objects that look like a curved line in green.

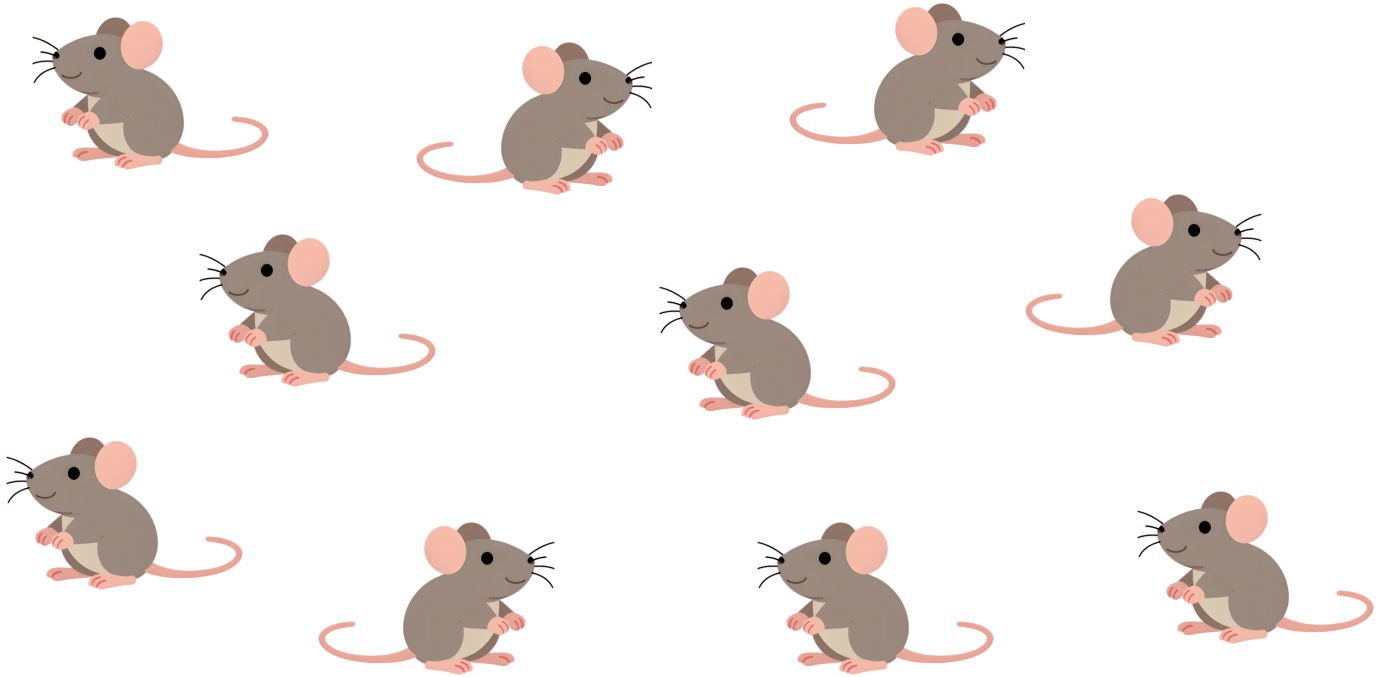

Problem 2

Trace the numbers. Circle the numbers that are made only of the straight lines.

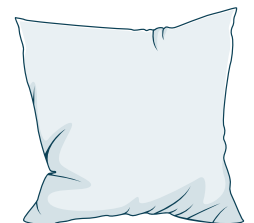

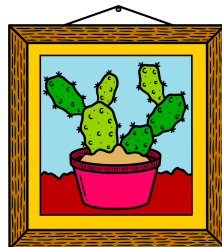

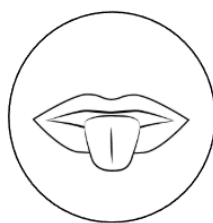

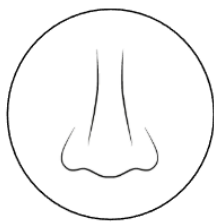

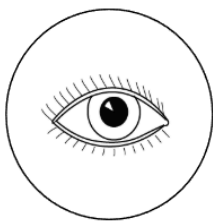

Problem 3

Circle the mice that plan to run to the left, cross out the mice that plan to run to the right.

Problem 4

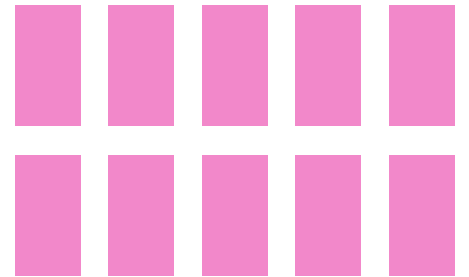

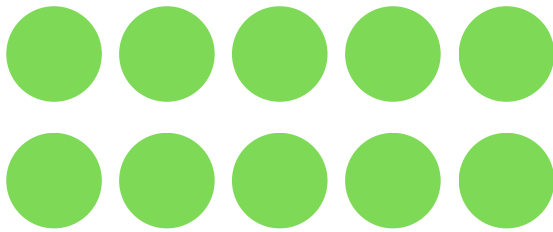

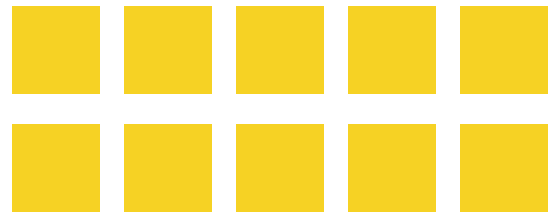

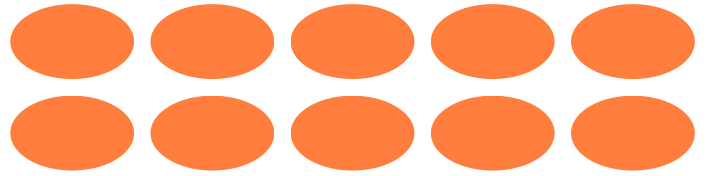

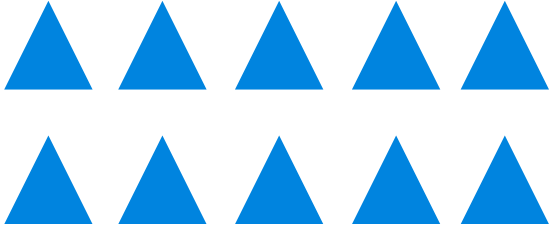

Connect the pictures with the senses (represented by the parts of the body) that help us experience the objects on the pictures the best.

Problem 5

Listen to the instructions and circle:

- five triangles
- eight squares
- seven circles
- four rectangles
- six ovals

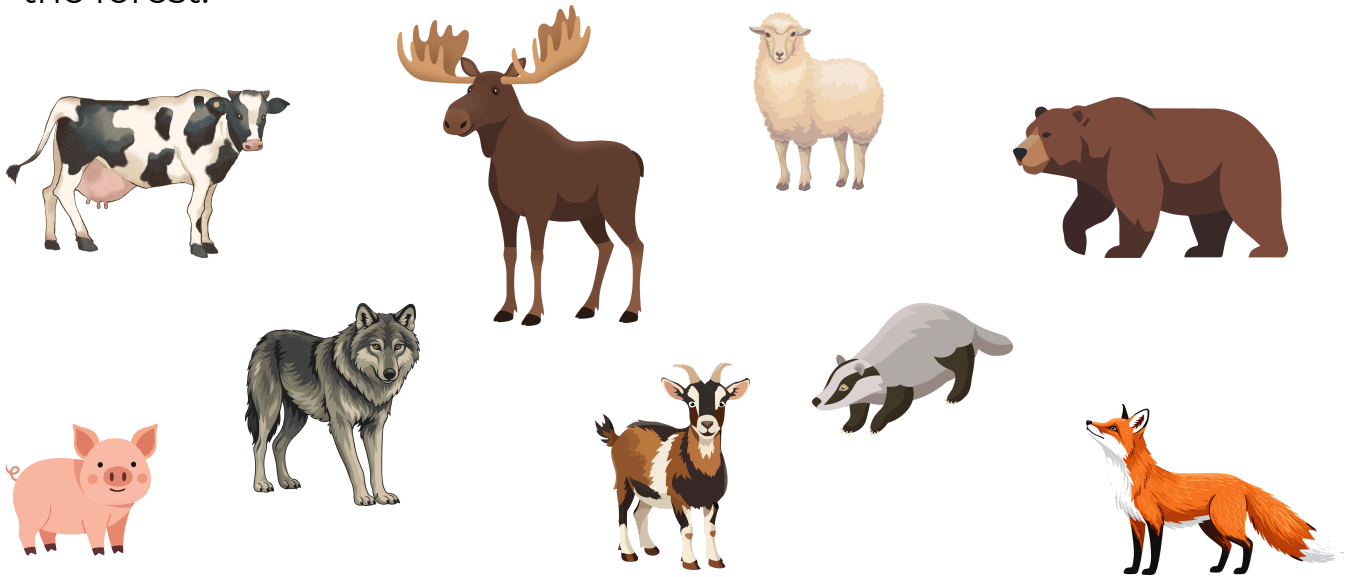

Problem 6

Find five differences.

Problem 7

Walk all the domestic animals to the farm and all the wild animals to the forest.

Problem 8

Find a mistake in each pattern. Circle the core of the pattern.

Problem 9

Cut out the pictures of the toys and place them in the right cubbies (marked with the first letter of the toy's name).
