

Homework 27.

1

What will you see if you look at the figure from the left and the front? Complete the drawings.

2

Calculate.

$33 + 35 - 17 =$

$84 - 54 - 3 =$

$44 - 4 + 23 =$

$79 - 4 + 10 =$

$20 + 40 + 9 =$

$57 - 53 + 9 =$

+1						
5 6	7 5	3 7	4 5	7 4	6 8	4 8
+ 7	+ 9	+ 3 5	+ 1 8	+ 1 7	+ 2 4	+ 3 8

-1						
7 4	5 2	3 3	4 5	6 7	2 2	7 2
- 5	- 8	- 1 7	- 2 9	- 4 7	- 5	- 1 7

3

Draw the figures without picking up the pencil from the paper.

4

1

3

We have three plates with apples on the table. There are 1 apple on the first plate, 3 apples on the second plate, and 8 apples on the third one. You have to make the number of apples the same on each plate, but you need to follow two rules. First: you can move apples from one plate to another as many times as you want, but you can take apples from only one plate at a time and put them on one plate only. Second: you can put as many apples on the plate as it already has (for example, on the second plate you can only put 3 apples right now, not 1 or 2 or 4...).

There were 12 men, 4 women and 3 kids on the bus. 6 passengers left on the first stop. How many people remained on the bus?

There were 23 students in first grade, and 2 more in second grade. How many students were there in the two grades together?

5

Mark the place where girls sit with red \times and those where boys sit

with blue \times .

Mark all occupied seats on the chart to the right. (Imagine that the theatre had turned around).

Chart:

Stage:

6

Solve. Put appropriate letter after the equal sign.

1. $\triangle = \bigcirc =$

2. $\square = \star =$

3. $\square = \star = \bigcirc =$

4. $\times = \bigcirc = \bigcirc =$

5. $\star = \bigcirc = \bigcirc =$

7

Solve the equations.

$X + 17 = 55$

$18 + X = 75$

$78 - X = 53$

$48 - X = 8$

$X =$

$X =$

$X =$

$X =$

$X =$

$X =$

$X =$

$X =$

Every food item hides a number. The sum of all numbers in a row is written on the right, and the sum of all numbers in a column is written under it. Find out what item hides which number.

Hint: 1.  = 1

2. Look at the 4th row. It holds 5 hamburgers, and the sum is 10. What do you think hamburger hides?

					15
					16
					16
					10
					16
15	13	17	17	11	

Answer:

 = ...
  = ...
  = ...
  = 1
  = ...

A square piece of paper was folded down the middle twice. Then a small piece was cut out. Identify the correct piece that was left after cutting.

6

You can see 3 faces of the cube on picture 1. Finish the drawings 2 and 3 assuming that it is the same cube. If you have problem turning it in your head, cut out templates from the page 40, glue the cubes and try again.
