

Homework 18

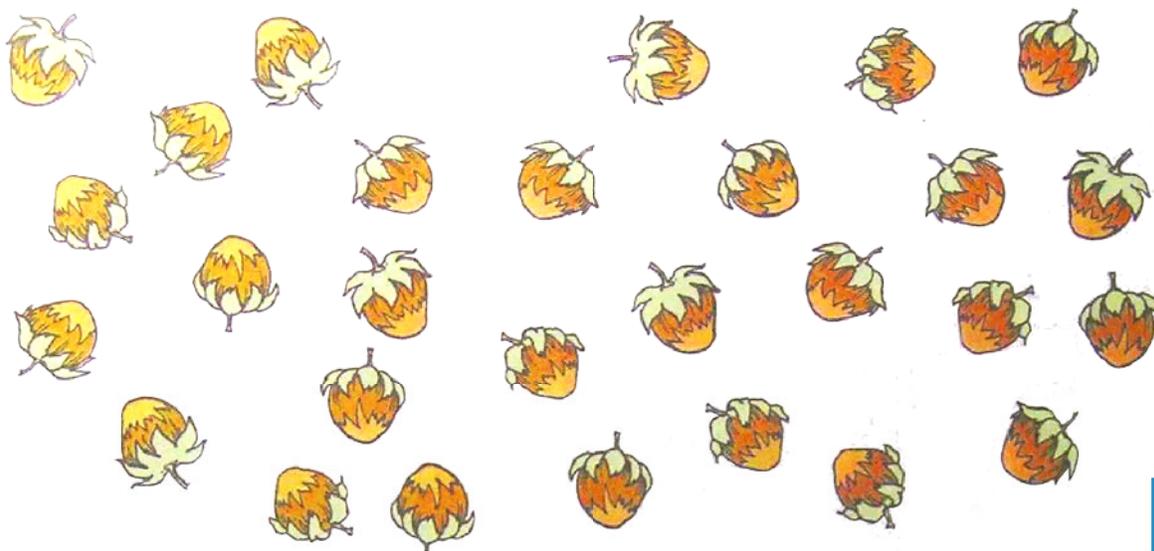

Problem 1

Either draw more objects or cross out extras to match each number in the circles. Connect the pictures with the same number of the objects.

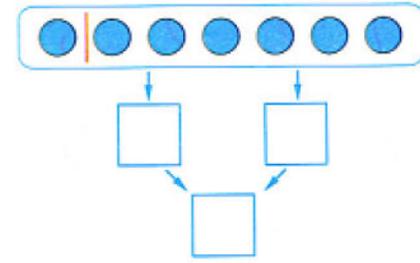

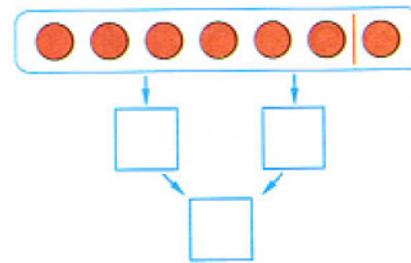

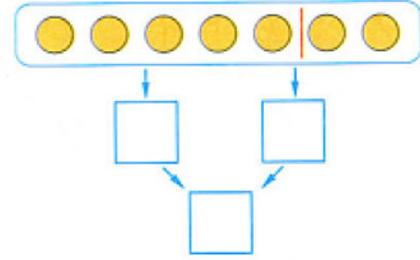

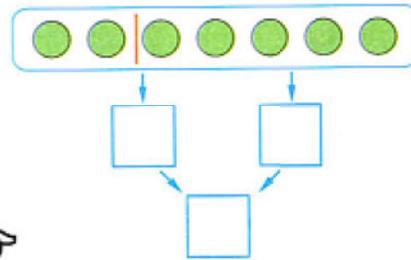

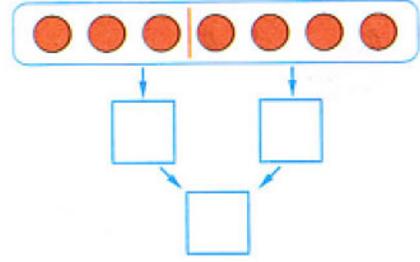

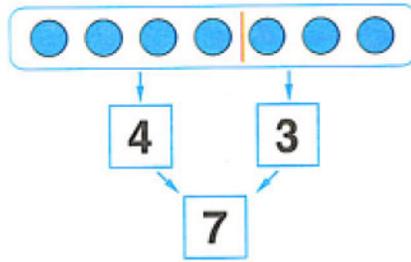

Problem 2

Divide all the nuts in groups of 7. How many groups did you get?

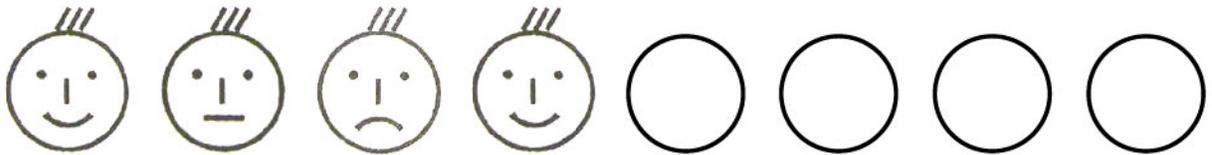

Problem 3

Write numbers in the boxes like Bunny did.

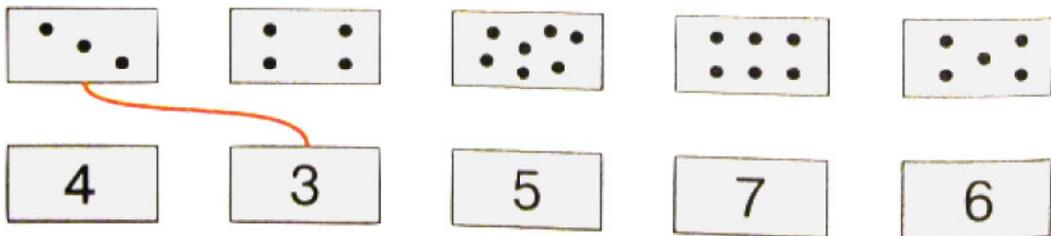

Problem 4

Finish the pattern.

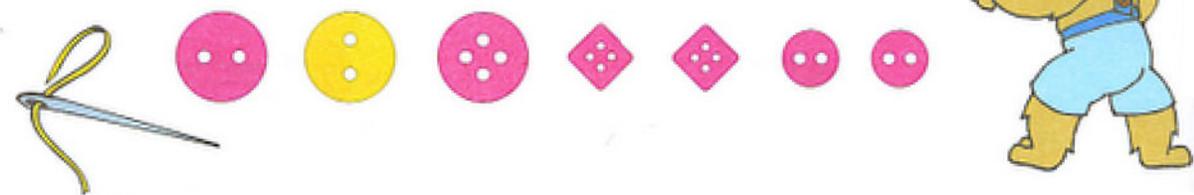

Problem 5

Connect the boxes that have dots with each correct number.

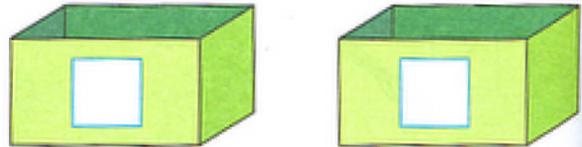

Problem 6

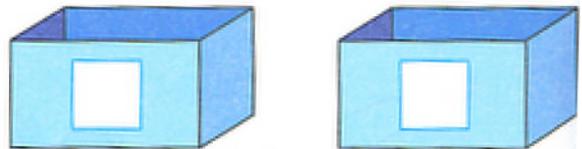

Teddy Bear has 7 buttons.

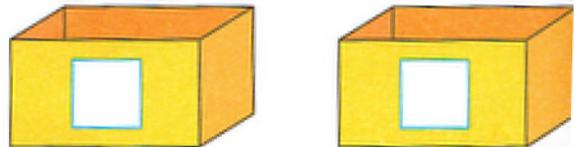

- Write how many buttons of the same color he can put into each box.

- Write how many buttons of the same size he can put into each box.

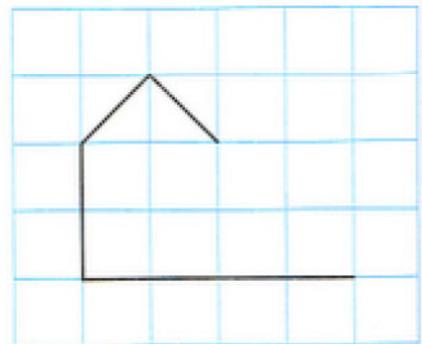

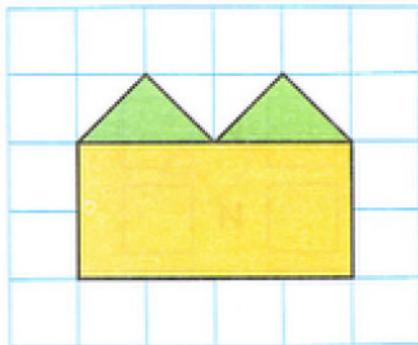

- Write how many buttons of the same shape he can put into each box.

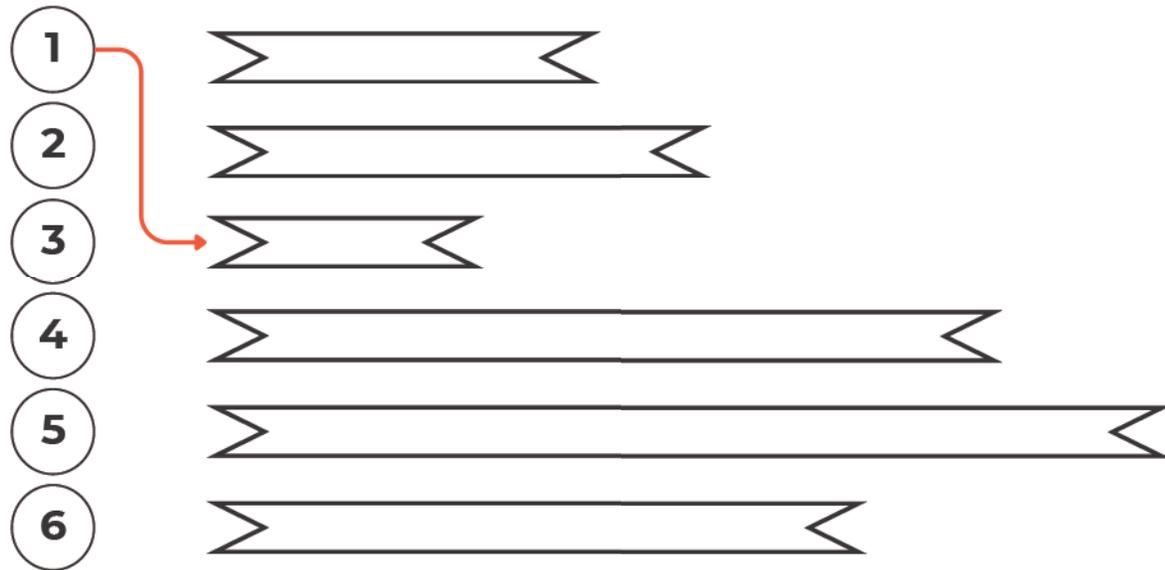

Problem 7

Help the Teddy Bear make the two pictures look the same.

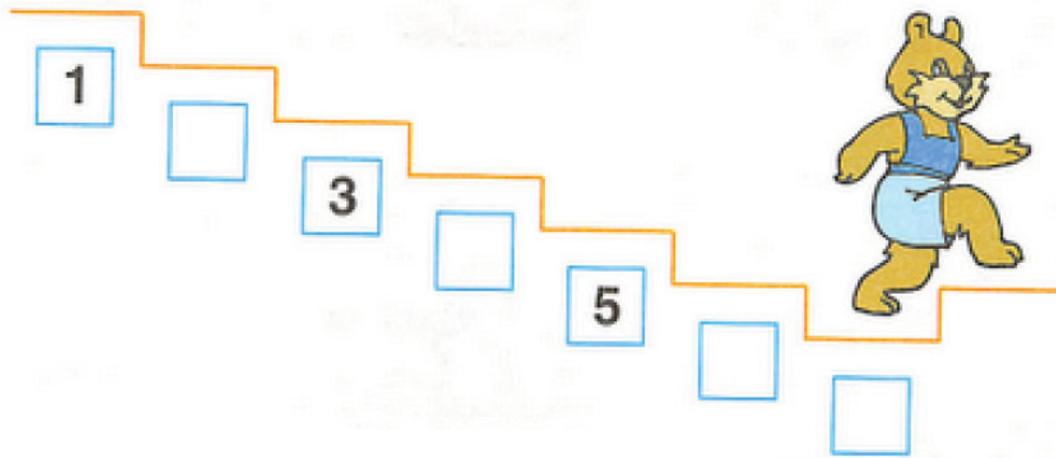

Problem 8

Put the ribbons in order based on their lengths.
Color in **the shortest** ribbon **red**, **the longest** one **green**,
the fourth longest ribbon - **orange** and **the fifth longest** - **blue**.

Problem 9

Fill in the number for each step that Teddy Bear missed.

Problem 10

Complete the picture by tracing the dotted lines. Try to finish one spiral on your own.
