

# Homework 25

## Problem 1

Which bolt matches the screw?

## Problem 2

Are there enough umbrellas for each frog? Color the umbrella that is **second to the left red** and **third to the right yellow**.

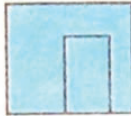

## Problem 3

Choose the shape in the diagram that is least like the red circle. Draw it to the right of the red circle.

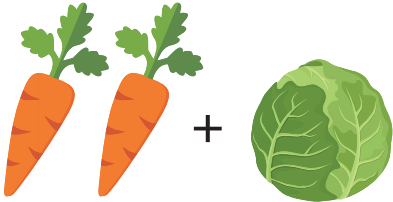

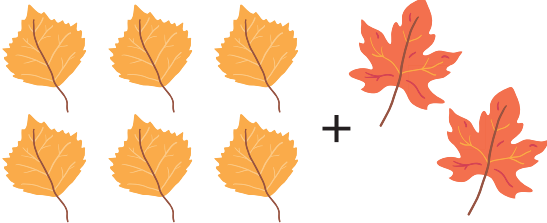

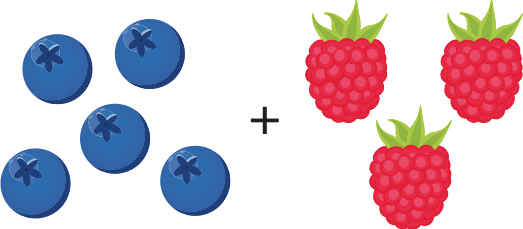

### Problem 4

Study the table and color the objects according to the pattern rule.

### Problem 5

Write the number sentences and solve the problems. Name the units you chose.

 $2 + 1 = \square$	 $\square + \square = \square$
 $\square + \square = \square$	 $\square + \square = \square$

### Problem 6

Draw the answers.

### Problem 7

Copy the picture.

### Problem 8

Find a house for each caterpillar and draw a line connecting them. Guess which colors the caterpillars need to be colored in, and finish the picture.

Count how many circles make up the caterpillars. Notice how the house is made up of the two parts, with the sum equal to the number on the roof.

### Problem 9

Look at the problems. How can you subtract 2?

$$\frac{3 - 2}{3 - 1 - 1} = \square$$

$$\frac{6 - 2}{6 - 1 - \square} = \square$$

$$\frac{9 - 2}{9 - 1 - \square} = \square$$

Solve the problems using the number line.

$$2 - 1 - 1 = \square$$

$$2 - 2 = \square$$

$$5 - 1 - 1 = \square$$

$$5 - 2 = \square$$

$$7 - 1 - 1 = \square$$

$$7 - 2 = \square$$

$$10 - 1 - 1 = \square$$

$$10 - 2 = \square$$

### Problem 10

Color the fish that are swimming **from right to left** **red** and the ones swimming **from left to right** **blue**.

### Problem 11

Make all the butterflies the same.  
Make all the balls the same.
